GOOD NEWS FOR

1965-66

PONY INTERIOR OWNERS

Don't throw away your ripped, torn or worn out Pony door panels! Recently, I found a place that has developed a method of recovering your original panels that makes them look factory fresh at a modest price. These repair panels are made of a tough A.B.S. vinyl lamination and are available in all '65-'66 colors.

Contact me at Gary Goddard's; Route 5, Box 550; Covington, Georgia 30209 (404)787-3793, or Brent Danneman; 85 Dalrymple Road, Atlanta, Georgia (404) 393-3040; or the company producing them: Upholstery Unlimited, 6050 - 57th Street, North in St. Petersburg, Florida 33709 (813) 544.4736.

They added the long awaited finishing touch to my own Pony interior and you can see them at the Stone Mountain Meet on August 5th, 6th and 7th.
