The MCA members listed above are assistants to the National Head Judge and are specialists in the above listed Mustang classes. They will be glad to answer your letters or phone calls (no collect calls, please) concerning judging and restoration in these classes.

I hope you have all noticed the changes we have made as far as lining up a technical crew to help you prepare your car correctly for MCA judging. We still need a qualified judge to help us in the Modified Class. Any takers?

I would like very much to thank the above assistants for volunteering their time and patience in helping MCA and me.

Please watch for this column in the upcoming months as we will be listing many new rule changes that will become effective January 1, 1987. We will be also listing reproduction items which we have approved for use in stock classes.

EFFECTIVE JANUARY 1, 1987 RULE CHANGE #1

All rear springs in stock class will be natural; exception, undercoating permitted but evidence of natural must be visible.
