

Well, we can sure tell that the show season has really arrived. I have just returned from Pensacola, Florida where the Gulf Coast Regional Group presented their annual Mustang show and swap meet. And as always, they had a very fine show. The weather was beautiful, temperatures in the 70's and NO RAIN. I believe there were 113 concours cars and 35 in the pony corral. Everything went really well. The one thing that impressed me most was the quality of the concours Mustangs — Super! So you can bet the farm the enthusiasm is still out there greater than ever. To those of you who did not attend the show we missed you, but hope to see you at a future show this year.

A reminder to the regional groups who are considering hosting a national show in 1987; be sure to get your requests in to National Headquarters as soon as possible. I've already talked to several groups who want a show, so you need to let us have your requests as early as you can.

I would like to recognize our newest regional group, the Rocky Mountain Mustang Club of Denver, Colorado. Welcome aboard and we wish you the best.

Until next time . . .
