

PRESS RELEASE

Re-Saddling the Pony

Motorbooks International announces the release of a dynamite new restoration guide: *Mustang Interior Restoration*. This is an easy, step-by-step guide to making Mustang interiors look like new again.

Author Trantafello is an upholstery expert and he goes through 1964½-1972 Mustang interiors stitch-by-stitch. Hundreds of clear photos and detailed text discuss carpets, seats, door panels, dashboards and headliners. He relates all the tips of the trade and teaches anyone how to get the job done right. All sorts of helpful hints show the reader how to save time and money. He also reviews some of the various upholstery kits currently on the market.

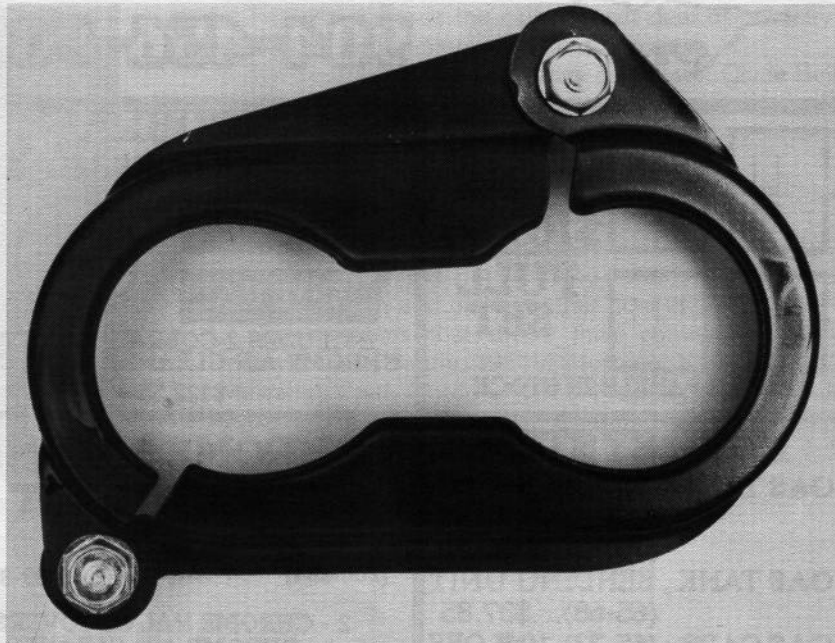

Mustangs, especially these models, are some of the most collectible American cars today. There are plenty of interior restoration books on the market but no other book has thoroughly detailed one model before. *Mustang Interior Restoration* is a must for every Mustang owner.

Published and distributed by Motorbooks International, P.O. Box 2REV, Osceola, WI 54020. Order direct by calling 800-826-6600.

1965-66 Reproduction Fender

Maryland Mustang is pleased to announce they have become master distributor for a 1965-66 reproduction fender. Retail price is \$149.00 each with a special introductory price of \$129.00 each. Dealer programs are available for qualified dealers.

Fenders are in stock for immediate delivery. Quality, fit, and finish are excellent. This new product should help all Mustangers lower their restoration costs.
