The Shelby-Mustang Club of Rochester, in association with the Twin Tier

YOU HAVE A NICE CAR HERE'S A GREAT WAY TO KEEP IT

Alarms are nice, but who is going to be the one to ask the gentleman if it is his car? The way to save the car is to keep the thief from driving off with it. DP PRODUCTS, a company dedicated to innovative automobile security, has developed an effective, inexpensive anti-theft module that will protect your vehicle yet will not alert a thief to its presence. This AUTOMATICALLY set device allows the engine to start, but not run - even if the thief has your key or pulls the ignition tumbler.

- o The thief perceives an out of tune engine. After repeated attempts to keep the engine running, he will run out of time and move to another, easier to steal vehicle.
- o There is nothing to carry with you to set or reset the system.
- o A discrete motion is all that is necessary to deactivate the system.
- o Easy to install, hardware included. For all 12V - ground vehicles.
- o An override switch allows you or your mechanic to work on the car or a parking valet to drive the car.

\$59.95 Postpaid. CA residents add 7% sales tax.

DP PRODUCTS, P.O. Box 985, Pleasanton, CA 94566
