

Zymol, Inc. Introduces Its New 'Fantasy' Wax

Zymol, Inc. has introduced its new "Fantasy" automotive wax, a blend of three custom formulas with an extremely high concentrate of carnauba and nutritive oils, according to Jack S. Jacewicz, product manager for the company.

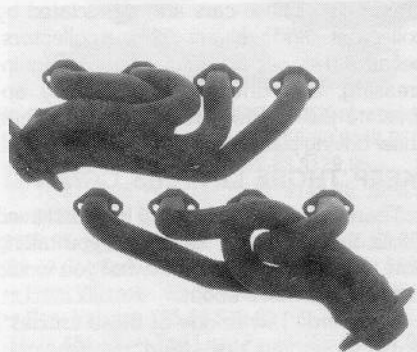

"Zymol 'Fantasy' was developed for the American automobile enthusiasts who treasure their cars. 'Fantasy' is a modern derivative of a 115-year-old German carriage wax and is a completely natural product without any of the harsh, paint-killing petrochemicals or abrasive compounds found in other car care products," Jacewicz said.

The company spokesman says each formulation "is designed to address the characteristics of the three most commonly used paints."

"Fantasy" is available for acrylic, urethane and lacquer.

"Each formulation starts with a 35 percent base of very rare white Brazilian carnauba blended with traditional base of yellow carnauba. Zymol adds coconut and banana extracts to produce a surface nutrient which imparts a beneficial and brilliant, crystalline gloss," Jacewicz said.

Zymol's 'Fantasy' wax is available through authorized Zymol distributors, including Corco West, Inc., 1-800-533-5743.

Shorty Headers Available

Mustangs Unlimited of Manchester, CT has recently introduced "equal length" shorty headers and 2½-inch exhaust systems for 1986-present 5.0L Mustangs.

They are available in three different finishes: polished chrome, industrial plated and black spereX. Another direct bolt-on item is the 2½-inch "off road" H-pipe which also directly replaces the production unit omitting the catalytic converters.

Tail pipes and mufflers, also 2½-inch and industrial plated, are available for both LX and GT models. Headers start at \$209.95,

The Mustang Times/December, 1991

H-pipes at \$159.95 and tailpipe/mufflers under \$250.

For more information contact Mustangs Unlimited, 185 Adams Street, Manchester, CT 06040, (203) 647-1965.

Power Top Fuses Offered

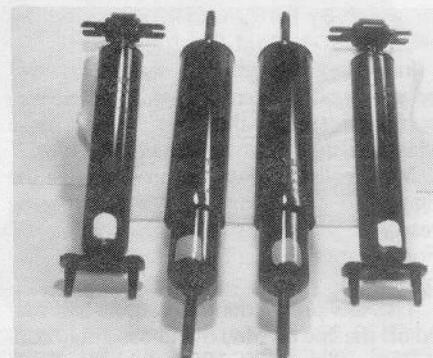

Virginia Mustang Supply of Broadway, VA has introduced a 1966 power top circuit breaker block with fuse link — a replacement part needed on virtually all 1966 Mustangs with power tops.

The kit includes the mounting block below the starter solenoid, screws and fuse link.

The price is \$19.95. For additional information contact Virginia Mustang Supply at (703) 896-2695.

Autolite Shocks Offered

Boss Exchange of Columbus, OH has announced the availability of MCA-approved Autolite shocks for all 1968-71 Mustangs, including Bosses and Cobra Jets (not Sheldys).

Produced from original tooling, these new reproductions have the correct Autolite logo, engineering number, and date code for individual applications. They are finished in black with appropriate color codes.

The price is \$280 per set of four, ready to install. Fronts or rears are available separately. For additional information, contact Boss Exchange at (614) 236-1410.
