Bend It, Shape It, Any Way You Want It!

The Eastwood Company has introduced a new tubing bender that forms metal tubing accurately without distortion. The tool's special "roller action" produces tight, uniform bends up to 180 degrees in both 3/16" and 1/4" tubing. In addition, the Rolling Tubing Bender will not harm the protective surface coating found on some fuel or brake lines. The all-steel tubing bender is available for \$24.95 plus \$3.95 shipping. For information call 1-800-345-1178.
