DP PRODUCTS ANTI-THEFT MODULE

Protect your investment! Alarms still need you to deter a theft. Would you risk telling a thief to get away from your car? Would a passerby do it for you? DP Products' new automatic setting anti-theft module can stop a thief for you. Not an alarm and with no remotes, it is a patented design that will not allow the car to be driven, yet will not alert the thief to its presence. If the thief does not know that he has been foiled, he will not go on a destructive search for the foiling device, and he may not damage your car out of frustration. Write for information.
