

Presenting
**The MINI-MUSTANG
 PEDAL CAR REPLICA**

*Exclusively from
 Blue Diamond Classics!*

ACTUAL SIZE 12.5"

Celebrate the heritage of the AMF Mustang pedal car with Blue Diamond Classics' limited edition, 1:3 scale replica! This beautiful desktop collectable has been created by Ed and Ken Kovach of King-K Products, master craftsmen of collectable automotive art. Individually produced in composite resin, each car is hand finished in Brilliant Red, the exact color used on the original Mustang pedal car in 1964.

Designed to exacting standards for discriminating collectors, this precision-engineered collectable will be available only while supplies last. Each of the 1000 cars produced will be individually signed and numbered by the Kovachs, and each will be accompanied by a signed certificate of authenticity.

If the numbers you request are no longer available, Blue Diamond Classics will select numbers nearest your choices.

Let Blue Diamond Classics bring the nostalgia of the Mustang pedal car to your home or

office for the remarkably low investment of only \$250.00. Order early to avoid disappointment and become one of the proud owners of a classic new Mustang in miniature.
