New Vs. Old

The "age old" drag racing competition between Mustangs and Camaros has been replaced with something even more exciting and challenging. This "new age" competition is just between new and old Mustangs!

Apparently drivers of both style Mustangs have grown bored with outrunning Camaros, so they have turned to each other for some real fun. So what's faster, cubes and carbs, or fuel injection and electronics?

Well, it only takes a short drive to find out - 1320 feet - and it shouldn't take you too long to draw your own conclusions - 15 seconds or less. Did we mention, it's also safe and legal fun. -Ed.

Mustang Owners!
