Ford Carburetors Forever

The Eastwood Company has recently come out with a new product designed to keep your carburetor working good and looking good. They call it "Silver Carb Renew". Offered in a spray can, it's a specially formulated translucent dye. This stuff is resistant to most fuel and fuel additives.

The idea is to remove the jets, then clean the carb the normal way. Once it's cleaned to your satisfaction, spray Silver Carb Renew on all of the external portions of the carb. The coating gives a carburetor that surgically clean look it had when brand new. You can reach The Eastwood Company by calling 1-800-345-1178. -Ed.
