

## CAR OF THE MONTH

### 1966 MUSTANG CONVERTIBLE OWNED BY:

ROGER L. FUELLING  
CHANDLER, ARIZONA

I first became interested in Mustangs around 1970, and finally became the owner of the one shown in September of 1976. The car was in very poor condition to say the least. I didn't have the time then to do much work on the car, so I went to Mr. Don Bernard here in Chandler. With his help and experience, we were able to drive it out of the shop in March of 1977.

We had to put a rebuilt 289 in, the other one had its days long gone. We also then put a dual exhaust on it. All the other equipment on the car is original equipment.

The car has 108,000 miles on it, and acts like it will go another 108,000 miles. I am, however, keeping the miles down by only driving it around town to show it off.

It came equipped with the following equipment: 289 engine, 4-V carburetor, C4 automatic transmission, factory air, power steering, standard seats, standard brakes, power top, AM radio, inside day and night mirror, outside remote control mirror and has a white top and black interior.

I am also proud to say that I am the second owner of this Mustang. Again, I would like to give my personal thanks to Mr. Don Bernard for his great help.

**EDITOR'S NOTE:** I would like to thank Roger Fuelling for giving us the privilege of featuring his fine Mustang as this month's car of the month.
