

New MCA member **Christopher C. Facciol** from Concord, Ontario, Canada, sent in this photo of his **1984 Anniversary hatchback** with his application. An original Canadian car with 60,000 miles on the odometer, Christopher has owned the white beauty for three years. This past summer the pony placed second at the Toronto Mustang Owners Association meet.

This black **1968 GT500 KR Shelby convertible** is owned by **Bill and Carol Kish** of Easton, Pennsylvania. As very active members of the First Pennsylvania Mustang Club, their droptop is no stranger to the show circuit. Equipped with a 428 Cobra Jet engine and four-speed transmission, this completely rebuilt example of Carroll Shelby's handiwork has won numerous awards during the past several years.

To have a photo of your pride and joy featured in Snapshots, send us a clear, well-focused print (preferably black and white, but color will do), along with statistical information such as name, city, and

state, and a brief description of your Mustang. Be sure to include your MCA membership number.

If you would like your photo returned, please include a self-addressed, stamped envelope.
