

Mustang II V8 Emblem

New from C.A.R Distributors is the reproduction Mustang II V8 emblem. This emblem fits the front fender of the 1975-78 Mustang II with the 302 engine. It is a high quality U.S.-made reproduction and comes complete with fasteners.

For more information on this item and other 1974-78 Mustang II parts contact C.A.R. Distributors, 1275 New Holland St., Holland, MI 49424, or phone (616) 399-6783 or fax (616) 399-0649

Reinforcements

Performance Parts, Inc., is selling a floorpan reinforcement for all 1979-83 Ford Mustangs, and Mercury Capris. Constructed of heavy gauge steel, PPI's *unique* reinforcement will assist in the repair of the cracking and splitting under the driver's side floorpan that is so prevalent in these early Fox-body cars. On cars that have not yet developed cracking, it will aid in the prevention and reinforce the chassis,

too. Installation is less than 30 minutes and the retail price is \$29.99.

For more information, contact Performance Parts, Inc., 13120 Lazy Glen Court, Herndon, VA 20171-2326, (703) 742-6207, E-mail ppi@mustangparts.com.

A New Level of Spark Plug Performance

Nology, a leading innovator of high performance automotive and motorcycle performance products, expands its line of technically advanced products with Silverstone Spark Plugs, the most powerful, innovative spark plugs available.

Silverstone spark plugs are especially designed to perform like no other. These spark plugs feature a large diameter, solid silver center electrode creating an intense spark up to 137% more powerful than conventional plugs. Unlike gold, platinum, and copper, pure silver is the most efficient and powerful conductor material therefore increasing spark power and thus delivering more horsepower.

Silverstone's large diameter solid silver center electrode resists erosion, guaranteeing a virtually

unchanged electrode gap for the life of the spark plug. This makes them the perfect spark plug for racing, towing, and everyday use.

Ideal for all performance enthusiasts, Silverstone spark plugs feature a unique high-purity, black aluminum oxide insulator designed without a suppressor resistor.

Nology offers Silverstone spark plugs for all popular cars, trucks, and S.U.V.s. With performance that sets new standards for the industry, Silverstone spark plugs provide increased horsepower, improved fuel economy, and reduced emission. Simply stated, Silverstone spark plugs out perform all other plugs.

For more information about Silverstone spark plugs, or the entire line of Nology performance products, contact Nology, 7360 Trade Street, San Diego, CA 92121, (619) 578-4688 or fax (619) 578-4388, www.nology.com.
