

This **1966 GT hardtop** is owned by **John and Marietta Wolfe of Millville, New Jersey**. The purchase of the pony in 1968 marked a first wedding anniversary. Equipment includes an **A-code 289, C-4 automatic transmission, Pony interior, and Styled Steel wheels**. The only deviation from originality is an engine dress-up kit and a repaint in **Nightmist Blue**.

Ms. Jo Rittenberry of Clarksville, Tennessee, claims this **1976 Cobra II** version of the second generation breed as her own. No doubt the **white hatchback** accented with **blue stripes** garners plenty of attention around town.

Amir Ebrahimzadeh of Houston, Texas, purchased this **1965 coupe** with the idea that it would be his fantasy car. After undergoing “restomod surgery” the vintage pony now resembles a **Shelby Group II racer**. Amir hopes to one day meet the legendary **Carroll Shelby**.
