USING A SPACE SAVER SPARE -- First (top left), mount the Space Saver Spare
tire on the car axle and slightly tighten the lug nuts. Next (top right), with
the valve in the six o'clock position, use the Space Saver Spare canister to
inflate the tire. If a compressed air source is used (bottom left), frequently
check the pressure to make sure it doesn't exceed 32 psi. When inflated, the
tire is transformed from its space-saving size to a tire ready for temporary
use (bottom right).
