

## CAR OF THE MONTH

CAR OF THE MONTH:

1967 Mustang 2+2

OWNED BY:

Roy Garmany  
Detroit, Michigan

I purchased my Mustang 2+2 new in 1967 from Roy O'Brien, Inc. in St. Clair Shores, Michigan. The car was originally special ordered for a doctor who eventually tired of the long wait and bought another car instead.

It has a 390 high performance V-8 engine, a four-barrel dual feed Holly carburetor, cruise-o-matic transmission, power front disc brakes, power steering, air conditioning, heavy duty GT equipment group, all tinted windows, AM radio, folding rear seat and access door, center console, interior decor group, wide-oval sports tires with wire wheel covers.

The car is a bright poppy red with a black accent stripe and black interior. The paint was also a special order and does not have a paint number. To my knowledge, it is the only 1967 Mustang painted this color.

With only 11,000 miles, my Mustang looks as though it just came off the assembly line. In fact, it still carries the original '67 Michigan license plates.

I am proud to be a member of the Mustang Club of America and I have recently submitted my application to the Mustang Owners Club of Southeastern Michigan.

I almost forgot to mention that my car has a set of 14K solid gold keys.

Roy Garmany  
Detroit, Michigan

EDITOR'S NOTE: We'd like to thank Roy Garmany of Detroit, Michigan for allowing us to feature his most beautiful 1967 2+2 as our May Car of the Month.
