Big Blocks Behind the Barn
by Michael Irvine

Ever had that dream where you stumble across a gold mine of muscle cars ... just sitting there needing little more than a buff and a shine and they're ready to go to the show? Well, like most automotive enthusiasts and collectors, Michael shares in this dream! That was the inspiration that fueled his imagination for "Big Blocks Behind the Barn."

"My idea for this painting is a simple one: if you're going to dream, then dream big! We've all heard the stories about that low mileage, well preserved muscle car found in a barn. What if instead of just looking inside the barn, you ventured beyond it, to make the ultimate find. Not just one ... but an entire collection of high performance vintage iron. Sure the paint may be a little faded, or a new set of tires needed, but overall the cars are in great shape and more importantly, in possession of all their 'hard to find' pieces. And with a new battery and fresh gas, they fire right up. This is the thought that runs through my head every time I take a drive through the countryside." —MICHAEL IRVINE

The Saleen Book is Back

If you weren't able to get a copy of *The Saleen Book: 20 Years of Saleen Mustang 1984-2003* during its short initial run, now is the chance to fill that empty spot in your automotive library.

By special arrangement, Driveway Books has acquired a small inventory of copies from The Saleen Book's printer of this instant classic. The Saleen Book includes a full-color history chapter for each year of Saleen production; the all-encompassing Owners Registry, which lists specs and available information on more than 7,000 individual Saleen Mustangs; an extensive media bibliography; and sidebars on cars of interest from the past two decades.

Automotive writer and former Saleen publicist Brad Bowling wrote *The Saleen Book* from an insider's angle that gives his story a uniquely intimate perspective.

Illustrating the 430-page hardback book are more than 550 of the 8,000 slides Bowling shot of original, unmodified cars as he traveled coast-to-coast researching this book, as well as many from Steve Saleen's company archives.

The Saleen Book will only be available through the publisher's website at www.drivewaybooks.com.

The Busted Knuckle Garage presents the most unique gifts for the "mechanic" on your shopping list. Look them up on the web at www.bustedknucklegarage.com. You may also phone them toll free at 888.708.0897 from 9:00 a.m. - 4:00 p.m. MST.

The Busted Knuckle Garage (TBKG) feels any true grease monkey deserves to look slick, especially when it comes to the best ball cap on the market covering up that not so full head of hair you once "slicked down."

Do you grow uncomfortable, even irritable if a toolbox is out of sight? Well now you can have one on your desk, workbench, or table at all times.

Organize your desk & clean up the clutter. The mini measures 9" W x 4" D x 5" H. Interior is approximately 3" Deep.

Powder-coated in toolbox red with The Busted Knuckle Garage® name and logo on front. No reason not to have one, you earned it. Priced at \$34.95.

With fuel prices climbing each day, it's time to fill 'er up with cookies. They're less expensive and taste better than unleaded. Handbags are made from used truck and tractor inner-tubes that would otherwise be part of landfills that pollute the Earth. These tubes are collected from tire centers cleaned using an environmentally friendly process. To give the bags a variety of colors fine, hand-dyed smooth grain & embossed leathers are used for the trim.

Start to finish they are hand made. Each has its own distinct markings that come from the factories where the inner tube was manufactured. Blemishes and/or marks that come from wear and tear of the road make each bag unique.
