1965-66 Battery Tray Kit with Top Holddown

Finally a specially-designed Battery Tray to safely secure your battery in a 1965-66 Model. This is a much safer alternative than the stock style hold down clamp. Most of today's batteries do not have a side lip to accept the stock 65-66 side hold down clamp. This tray allows you to safely secure your battery the way it should be. It fits in the stock location, exactly like the original tray. The tray is the correct size for the popular Group 24 Battery.

This kit includes the newly designed Battery Tray, Top Hold Down Clamp, and 2 Hold Down "J" Bolts. These parts may also be purchased separately.
 EG-2602 Kit \$23.95

See our web site or catalog for other Battery Trays, Holddown Clamps and Related Parts.
