Quality 1964½-73 Mustang Parts and Accessories. Serving the Hobby for over 25 years!

1965-72 Ford Car Master Parts and Accessory Catalog (DVD)

Great source of information on one DVD. This is a high quality DVD and is Ford licensed. The Ford Car Master Parts and Accessory Catalog is the original manual used by Ford technicians in the 60's and 70's to identify the correct service part for a Ford vehicle. It contains a comprehensive list of thousands of part numbers, thousands of diagrams, when part numbers changed in the middle of a production year, and other information necessary for any vintage car restoration. This manual covers the following models from 1965 to 1972: Mustang, Maverick, Bronco, Thunderbird, Torino, Pinto, Fairlane, and Falcon. With 6,089 pages this massive catalog has been both hard to find and extremely expensive. However, with today's computer technology, the entire manual has been digitally scanned into a high resolution DVD at an affordable price. And because it is in Adobe Reader format, catalog pages can be viewed, printed, or enlarged to 1600%. So, for the first time the novice and the experts have access to the same restoration information! PC Windows compatible.

Shop Manuals on CD-ROM!

The original manual used by Ford dealership mechanics to guide them through diagnostics, repairs, and maintenance. Each section provides information on the operation of major systems, diagnostics, troubleshooting, overhaul, as well as the removal and installation of major components. Written in an easy to understand format, this manual contains step-by-step instructions designed for the novice and the expert. In addition, this manual is filled with illustrations, photographs, and diagrams that help in the identification of parts and proper assembly.

This manual covers additional models (depending upon year) along with, of course, the Mustang. This product is produced in Adobe Reader (pdf) format to retain the exact look and feel of the original manual. Simply scroll through the pages and sections like reading a normal printed manual. In addition, unlike a printed version, each page can be printed (or reprinted, if damaged in the garage), zoom in to over 1200% to see the exact details, and you can search for keywords. PC Windows compatible.

All years available from 1964 to 1973 (specify year) Only \$21.95
