FUEL RAIL COVER

Be the first one on your block to get one of CPC's new NXT Generation 2005-2008 Mustang Fuel Rail and Fuse Box Cover kits. Shown here with a factory plenum cover, for illustration, these covers match the factory plenum cover perfectly and can be installed in less than 30 minutes (if you follow the easy to follow instruction first). Kit includes covers, brackets, screws, two sided tape and instructions.

Also, inquire on CPC's new NXT Generation late model Mustang products, such as Shock Tower Covers, Hood Lift Kits, Volant Cold Air Intake box and Exhaust kits.

For more information contact California Pony Cars. Be sure to tell them you read about this product in *Mustang Times*.

MACH 1 JACKET

If you've read show coverage for the past couple of years, you no doubt have seen what I've referred to as the "Elusive Black Mustang Jacket." Well, now there's a matching Mach 1 jacket. This is the first Mach1 jacket one I've seen, and it's a beauty!

Like the Mustang jacket, the Mach 1 jacket has a warm, cotton twill design. It sports finely embroidered designs on front, back and arms. The sleeve cuffs and waist band are made of elastic cotton. There are two outside pockets and two pockets plus a bonus cell-phone pocket in the lining. Officially Licensed by Ford. Payments are accepted via PayPal, Credit Card, Check. MSRP \$150, MCA Member price \$125 - FREE SHIPPING through January 31. Contact Mach 1 Fun and be sure to tell them you saw the jacket in *Mustang Times*.

CARTECH BOOKS

How to Regild and Modify/ Carter/Edelbrock Carburetors is a revision of *Super Tuning and Modifying Carter Carburetors*.

This new book by Dave Emanuel contains more than 300 color photos, illustrations, and diagrams covering rebuilding, tuning, and modifying Carter and Edelbrock carbs.

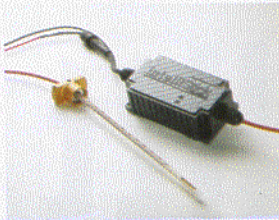

Also featured is the history of Carter as well as the history of the AFB and the AVS since the purchase by Edelbrock. Emanuel outlines carburetor types, gives a thorough look at carb selection and function, and offers information on mods, tuning, and rebuilding Carter/Edelbrock carburetors.

The 8.5 x 11-inch, softbound book has 136 pages and is priced at \$24.95. Item number SA130.

IntelliStick™

INTELLISTICK™

The IntelliStick™ is a compact dipstick replacement which electronically monitors anti-wear conditions of engine oil and is able to detect water and/or coolant intrusions. Real-time oil condition data can be easily uploaded via a Bluetooth® wireless device such as a PDA, cell phone, or laptop computer using Microsoft® Windows®.

IntelliStick eliminates the need for conventional oil change intervals or time-consuming engine oil lab analysis by providing accurate oil condition data in real-time.

Potential benefits include a reduction of oil usage, improved fuel economy by monitoring the condition of oil additives, and increased engine life.

For more information, contact

IntelliStick, Inc. (be sure to tell them you read about it in *Mustang Times*)

STREETPRO AND SUPER STREETPRO CLUTCH KITS

Now available for late-model Mustangs are McLeod's brand new StreetPro and Super StreetPro Clutch Kits. Complete, ready-to-install replacement performance clutches, these new kits typically include a clutch disc, pressure plate, throw-out bearing, pilot bearing and alignment tool. This clutch is ideal for cars with basic engine modifications like cold-air intake, exhaust and engine management programming and with street tires.

The Super StreetPro is ideal for the street/strip enthusiast and is designed for cars that have upgraded intake, exhaust, camshaft and cylinder head work, and engine management programming. These clutches provide slightly heavier pedal effort than stock, while offering good holding capacity.

Get over 30 years of racing clutch technology on your side—bolt on a McLeod Clutch! McLeod has more than 30 years of racing and street clutch technology and has supplied clutches for racers the world over.
