

1993 COBRA WHEELS

Performance Parts has a limited quantity of new 1993 Cobra wheels! These were stored and handled poorly and have been fully restored and refinished to as-new condition. They have sets of 4 and a few individual wheels available!

It is important to stress that these are original Ford-production wheels and not to be confused with off-shore reproductions on the market now.

Their restored 1993 Cobra wheels have been on recent MCA show winners!

WINE WITH AN AUTOMOTIVE TWIST

Everything Carz has introduced a line of automotive styled accessories for the individual who loves fine wine and automobiles, automotive styled wine stoppers and corkscrews. The 6-speed driven designed wine stopper is made of fine solid beech wood with a dark cherry finish. The bottle stopper is chrome plated metal with a rubber seal for proper fitment. To compliment this auto wine stopper Everything Carz also offers a handbrake styled corkscrew. The corkscrew is hidden within the handbrake handle and the two halves are swiveled open to reveal the corkscrew.

For further information visit www.everythingcarz.com or email mk@everythingcarz.com. Be sure to tell them you read this in *Mustang Times*.

MOTHERS® CALIFORNIA GOLD® SPRAY WAX

Mothers® Polishes • Waxes • Cleaners introduces California Gold® Spray Wax, an easy, one-step solution to clean, shine and protect automotive paint finish, including clearcoats.

Getting ready for a cruise-in or car show? To restore that "just waxed" look, all you need is a light mist of Spray Wax and a gentle wipe of a plush detailing towel. Spray Wax can be used on wet surfaces as you dry, as a booster over your existing wax, or as a stand-alone product. Use Spray Wax regularly to clean and provide luster and depth in between washes and traditional wax applications. It's also great as a touch-up on high-use areas of your vehicle, and leaves no chalky residue on trim.

Mothers® is known worldwide for polishes, waxes and cleaners and offers a broad array of car care products under its California Gold®, FX, Reflections®, PowerBall® and Marine lines. For information on Mothers products visit www.mothers.com. A host of car-care tips and Mothers® Detail Guide is online at www.detailguide.com and the Wax Forum at www.waxforum.com.

"DYNO-PROVEN SMALL-BLOCK FORD PERFORMANCE"

The popular small-block Ford engine has powered a host of performance vehicles since its introduction in 1962, including the iconic Mustang from its inception all the way through 1995. These pushrod wonders have been around the block, and there has never been a better time to tear into them and find some horsepower.

In *Dyno-Proven Small-Block Ford Performance*, author Richard Holdener dyno tests a variety of performance parts on carbureted and fuel-injected Windsor engines in 302- to 427-ci combinations. These before-and-after tests show readers scientific, real-world results to help them decide which performance parts are right for them.

Chapters cover the intake and exhaust systems, cylinder heads, camshafts, stroker kits, and even superchargers, turbochargers, and nitrous oxide. There's no advertising here—just dyno-verified results.

This 8-1/2 x 11" softbound book features 144 pages packed with 250 color photos. The book is now available and may be ordered for \$24.95 plus \$6.95 shipping and handling by calling CarTech at 1.800.551.4754 or by visiting www.carttechbooks.com. Be sure to tell them you read this in *Mustang Times*.
