

## Dear Mary Jean

I would like to get some assistance from those of you at the *Mustang Times* or from your readers.

About three years ago, I made an offer on a Mustang that I thought would be refused. To my surprise, after some contemplation, the guy said, "Okay, you can have the car for that price." Since then, I've taken on the project of giving the Stang some loving care and restoration. Jay Leno calls it "sympathetic restoration." Please see the photo of my Mustang. I sent my VIN to Marti Auto Works and they assembled all the information on the car except the color. The door plate only indicated "Special Paint." So, I sliwered off some of the paint caulking wehere the fender well and the trunk deck come together and sent it to them. They matched it to their data base and determined the color and paint code—Purple Metallic M3203-A. So, I used that information in the body restoration and painting. We took the car down to the metal and using the Ford paint code, brought it back up to its present condition. I've yet to meet anyone at Mustang shows and elsewhere that ever saw a '67 Mustang painted that color. I think it's a beautiful car—as does everyone else that sees it. The interior and motor are original.

Now to my request: The Marti Report indicates that the "Order Type" is Fleet. I would like to know how I might go about getting to the bottom of what leet it was a part of, if any, or anything else concerning the car and its unique color. The report also shows there were 5,736 '67 Mustangs made that color.

Thank you in advance for any assistance you or your readers can provide in my pursuit of knowledge.

In addition to MCA, I'm a member of the

Michiana Mustangs. My first Mustang was a '65 2+2 Fastback (regretfully sold). My wife, Karon, and I now own a '96 convertible with amost 100,000miles on it, (we have it at our winter home in Mesa, AZ) and an '06 Redfire convertible.

Curly Long

## Hi Mary Jean,

For several years now I have seen letters from disgruntled Mustang II owners. They don't get respect, attention, or consideration at shows or publications. Well, let me tell you, the Northern Mustang Corral is looking to give them all this and more. Our car show will be held Aug. 3rd in Bourbonnais, IL. At this years show we will feature the Mustang II. Not only are we focusing on them, we are not charging a show registration fee for Mustang II's! So, all you Mustang II owners, come on out and show the public what a fantastic pony you have.

John Garner

We would like to hear what's on your mind. Send your letters via e-mail to:
