

**BILLET TACH MOUNT FOR EARLY MUSTANGS**

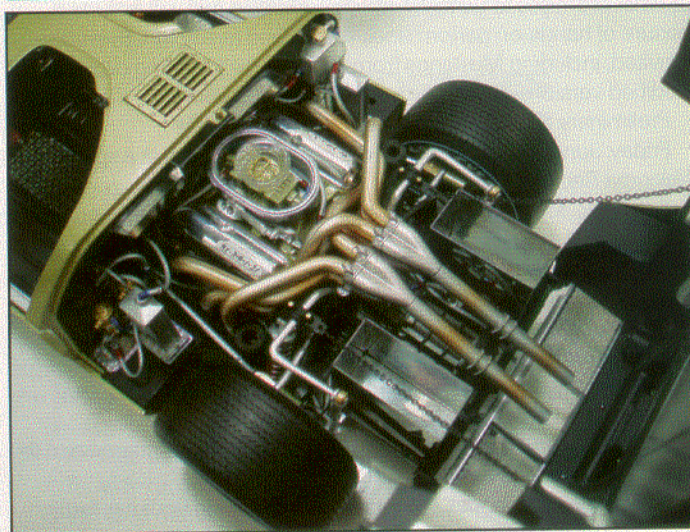

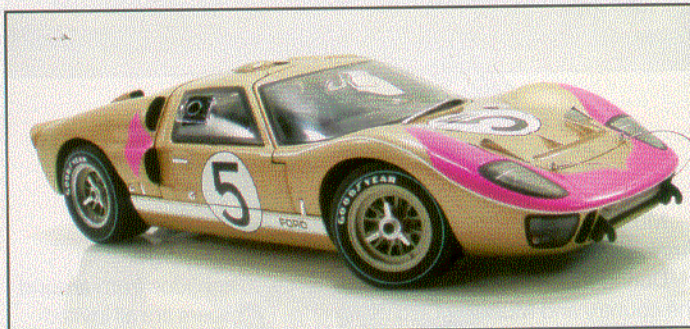

Borgeson has expanded the applications for their Billet Aluminum Tach Mount. No more staring at that hose clamp that holds your tach on the column. Borgeson manufactures beautiful cups which unscrew from the back for easy wiring, and they clamp directly on the column for a very clean look. They also make cups to fit Autometer, Classic, Stewart Warner, VDO and SVO Tachs. Any space Mustang with the two-inch column tube exposed can now have a tach mount worthy of their car. For more information call Borgeson at 860.482.8283 or check out [www.borgeson.com](http://www.borgeson.com). Be sure to tell them you read about these new Tach mounts in *Mustang Times*.

**GPS SNITCH**

By combining high-sensitivity GPS technology with the wireless data capabilities of the cellular telephone system, GPS Snitch provides real-time location tracking over the internet. GPS Snitch is completely self-contained, requires no installation, and is small enough to be hidden within any car, truck, motorcycle, ATV or snowmobile. Arm GPS Snitch, hide it, and then track it through [www.gps-snitch.com](http://www.gps-snitch.com) or through a text message from your mobile phone. GPS Snitch's battery

lasts up to seven days and can also be hardwired to take advantage of your car's power. The GPS Snitch device features intelligent motion detection technology that enables users to be notified via email and/or a text message as soon as motion is detected. Users can even use their mobile phone as a remote control by texting commands to arm or disarm, locate, and turn pet mode on which will suspend motion alert messages if there is a pet in the vehicle. GPS Snitch also works great as a road trip gadget by allowing the user to import their history into Google Earth and re-live past destinations and locations in 3D. GPS Snitch is available now from [www.gps-snitch.com](http://www.gps-snitch.com) and [www.jcwhitney.com](http://www.jcwhitney.com) for \$399 MSRP with several monthly payment options for the tracking service.

## STUBBY WRENCHES

PROFORM® Parts has added these short handle AN wrenches to their list of engine building tools. These lightweight and adjustable "stubbys" join their SEMA Award Winning big brothers in the PROFORM® tool kit. You can accomplish any automotive, or other plumbing job that requires AN fittings, with these two handy wrenches. They are available individually in the 3 AN to 8 AN size, wrench #67723, or the 3 AN to 20 AN size, wrench #67724 or #67722 for the pair of wrenches.

The PROFORM® "stubby" handle aluminum wrenches are super for assisting to prevent scratches on polished or anodized AN fittings. They are ergonomically designed for comfort. Important features include exact adjustability, non-marring jaws and an anodized surface for long life and professional appearance. Suggested retail is approximately \$89 for the pair, \$41 for the small version and \$53 for the larger wrench. To preview all of PROFORM's internal and external engine parts, and inexpensive line of engine building tools visit their website listed below.
