Roller Bearing Spring Perches

Improve the handling of your classic Ford with ORP Roller Spring Perches. Stock perches use rubber as the bushing between the perch and the perch-mounting shaft which greatly increases the effort required for your suspension to move. Our roller spring perches use roller bearings to greatly reduce this resistance which improves ride quality, responsiveness to the road, and improved handling. 65-73 # 12176 **ONLY \$199.95 pr**
