BULLITT STRUTS, SHOCKS, AND SPRINGS

Performance Parts is down to a sets of 2001 Mustang BULLITT strut, shock and springs. As you've been schooled over the past

few years, these are different and far more desirable than the 2003-2004 Mach 1 components sold elsewhere as the better performing obsolete Bullitt components.

Priced at just \$499.99/complete kit and we are throwing-in a full set of Ford spring isolators while supplies last when you tell them you are an MCA member.

These kits will fit all 1979-2004 Mustangs.

HEADLIGHT LENS RESTORATION SYSTEM

In Less than 30 Minutes and for Less than \$30, Consumers Can Restore Cloudy Headlight Covers to Crystal Clear Performance

If your car is more than three or four years old and has plastic headlight lens, chances are you are among the 15 million car owners battling cloudy, dull headlights

that decrease night-time visibility and can contribute to unsafe driving conditions on the road.

While plastic headlights help reduce vehicle weight and withstand impact, oxidation and sunlight can dull the surface, turn it yellow or leave it cloudy and scratched. This means the light from the headlights is diffused and not focused correctly on the roadway, which limits visibility in dark and rainy conditions. Not only can the driver of the vehicle not see the roadway, the vehicle also is also less visible to other cars.

The 3M Headlight Lens Restoration System includes the following products:

- Six 500 grit 3" sanding discs
- Four 800 grit 3" sanding discs
- One 3,000 grit 3" sanding disc
- One foam polishing pad
- 3M Headlight Lens Polish
- One 3" backup pad adapter

The only tool a consumer needs is an electric or cordless drill with 1,000 to 3,000 RPMs.

The 3M Car Care product line can be found at leading automotive aftermarket retailers and online through select distributors. For more information on 3M Car Care products, visit www.3Mcarcare.com.

CUSTOM TEES N MORE

If you've been in the automotive hobby for any length of time, you've probably assembled quite a collection of car related trinkets such as shirts, caps, key chains etc. To some, the lure of anything bearing our favorite marquee is too strong to ignore. For others, searching for that perfect piece of automobilia is as much a part of the experience as the show itself.

If you've ever spent time thumbing through endless stacks of those reproduction tin signs looking for one that resembles your steed, chances are you either walked away empty handed, or settled for something similar.

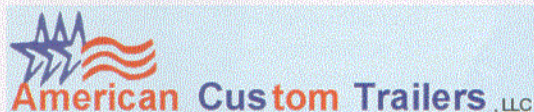

How hard can it be to find a sign with a Purple Mach 1 with aftermarket Cragar mags and a yellow stripe anyway?

As it turns out, not hard at all if you know where to look.

Custom Tees N More Inc www.customteesnmore.com may not be the most well known names in the hobby yet, but that just may be because they are one of it's best kept secrets. Custom Tee's products adorn the walls of some of the nations most well known automotive television programs, museums, events, publications, auto makers & celebrities. Many of which regularly return for more. What makes them so special? Well, if your looking for a Purple Mach 1 with aftermarket Cragar mags and a yellow stripe Custom Tees N More is just what the doctor ordered!

Specializing in one of a kind products, Custom Tees has established itself as the "go to" people among many in the industry. Mid America Shelby participants in Tulsa last month had the opportunity to see up close an example of their work when a poster sized magazine cover signed by Carroll Shelby was auctioned off for charity raising four thousand dollars!

Classic pony to the latest GT500 KR, Custom Tees N More has exactly what you've been looking for...YOUR CAR!

is now a licensed partner with **The Ford Motor Company!**
