

1969-'70 MUSTANG STEP PLATES-MADE IN THE ORIGINAL FORD TOOLING

Virginia Classic Mustang has 1969-70 Mustang Step Plates, made in the Original Ford Tooling, available for purchase.

These new Step Plates fit all body styles. They feature good detail and come with a protective plastic film. These are better than the last "NOS" Ford Service Parts that you may find, since repairs have been made to the Original Tooling.

For many years the Ford Service Parts have been made from brushed aluminum. The originals that were installed on the assembly line were made from polished aluminum. These are made just like the originals!

Order Part Number IN-712. Price is \$39.95 each plus shipping.

WHITE NIGHT REAR LIGHTING SYSTEM

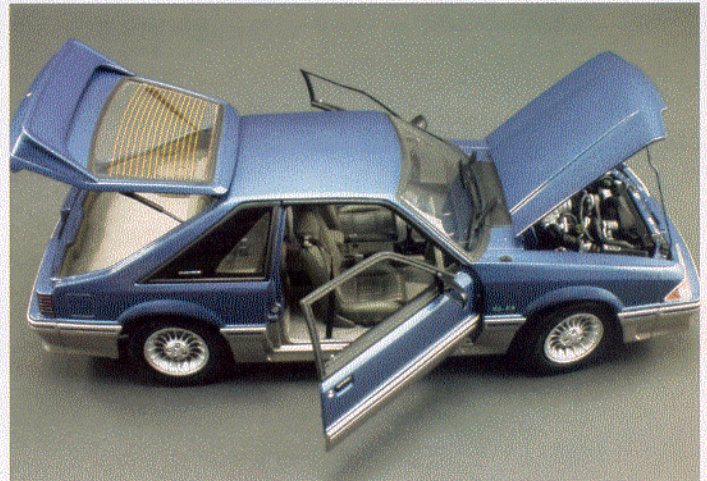

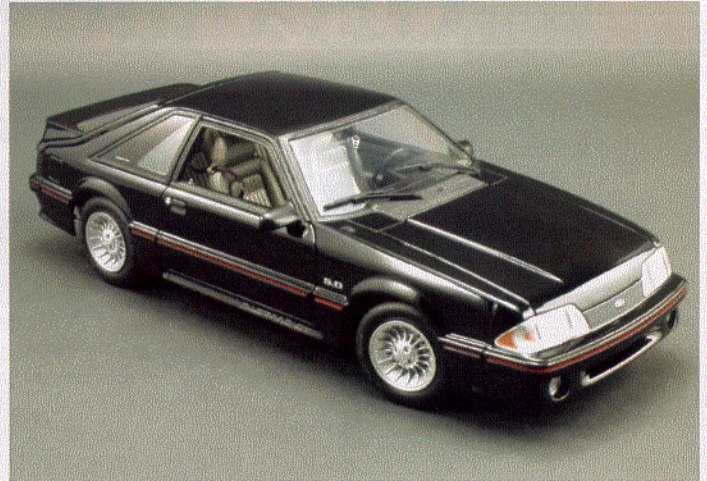

Cruiser Stainless Accessories offers the White Night Rear Lighting System to improve safety and provide peace of mind when backing up tow vehicles, or anytime a pickup or SUV is backed at night.

White Night utilizes two powerful 55-watt halogen lamps, enclosed in a high-impact black plastic case to automatically throw an 80-foot spread of white light behind the vehicle when in reverse gear, increasing rearward visibility. A toggle switch on the unit also allows manual operation.

White Night is compact and mounts to the hitch receiver tube of most class 1-4 trailer hitches. Fixed mount units allow full use of the hitch for towing. No drilling is required. A unique Plug-N-Go feature makes White Night easy to install.

Although shown with a boat being towed, just imagine how much easier it'd be to tow your prized 'Stang or trailer with a White Night installed.

GMP 1989 MUSTANG GTs— A VERY LIMITED EDITION!

GMP announced the availability of two 1989 Mustang GT models in very limited quantities. Produced in Shadow Blue Metallic over Titanium and in Gloss Black, both models are 1/18th scale and will be priced at \$109.95. Available in quantities of 500 each, contact GMP or your favorite GMP retailer to put in your order. The 25th Anniversary Mustang GT's featured: High Output 5.0 Liter V8 Powerplant; 225 HP @ 4000 RPM; 300 lb-ft Torque @ 3200 RPM; Borg-Warner 5 speed Floor Shifter with Console; 140 MPH Speedometer; GT Handling Package, including springs, front and rear sway bars, and struts; 8.8" Rear Traction-Lok Rear Axle; Stainless Steel Headers and Dual Exhaust; 15 X 7 Turbine Wheels wrapped in Soft-touch Goodyear Unidirectional Skins; Ground Effects Aero Package; Red Bodyside Molding Insert Stripe on Gloss Black Model; Moving Hand Brake Lever and Accurate Hood Prop Rod, Rear Hatch Struts, Rear Defroster, Pivoting Bucket Seats and Retractable Shoulder Belts ... and much more! Of course the models don't come with such claims as to horsepower and torque, but scaled versions of all the features are evident on GMP's superior-quality products.
