

**NEW OFFERINGS FROM
PERFORMANCE PARTS, INC.****COOLING SYSTEM UPGRADE**

Performance Parts, Inc. has put together a kit that includes a 1993 Cobra overdrive water pump pulley and a Special Service (police) fan clutch and are able to offer it for just \$124.99. This is a savings of over \$25 if purchased separately.

The benefits from using these parts on your 1985-'93 5.0L Mustang or 1985-'86 5.0L Capri include greater coolant flow volume without cavitation and far greater air draw thru the radiator lowering coolant temperatures. The stock serpentine belt, fan and tensioner are retained. Installation time is less than 15 minutes with simple hand tools.

Dealers and clubs receive their customary discounts!

COBRA JET FAUX FUEL DOOR

Performance Parts has brand new 2008 Cobra Jet faux fuel doors available for just \$19.99 each. These fit all 2005-'09 Mustangs! These are the "real deal" and install easily in a couple minutes. They also make great looking paperweights!

Performance Parts also has all the 2008 Cobra Jet exterior, interior, powertrain and suspension parts!

65MM THROTTLE BODY

We have brand new Ford Racing 65mm throttle bodies for 1994-1995 Mustang 5.0L engines. Originally priced over \$200, these are a direct replacement for the stock throttle body and require no modifications at all. They are currently priced at \$89.99 each with free domestic shipping while supplies last!

**VINTAGE PARTS FROM
SCOTT DRAKE ENTERPRISES****OIL CAPS**

FE Ford lovers will be happy to learn that correct, original-style 390 oil fill caps are available again from Scott Drake Enterprises of Henderson, Nevada.

These beautiful twist-on double filtration oil caps are Official Licensed Products of the Ford Motor Company, and bear the famous "FoMoCo" logo stamped into the top. Premium quality chrome plating ensures a long-lasting durable shine, which will look terrific on any 1964-'67 Ford with the 390 engine. Part number C5ME-6766-A.

FAN SPACERS

Check out these gorgeous new 1964-'73 Ford Fan Spacers. At 2.25-inches long (5.72 cm), they are vital for keeping your fan blades close to the radiator, where they can do the most efficient job of drawing cool air through the core (not for clutch-equipped fans). This spacer is a reproduction of the OEM Ford factory unit.

Precision made from billet aluminum by Scott Drake Enterprises, these premium quality Fan Spacers are available in either original-style natural finish (part number C4AZ-8546-A), or brightly polished (Part number C4AZ-8546-P) for that high performance look.

**CARROLL SHELBY WINE
COLLECTION**

The Carroll Shelby Foundation and DenBeste Vineyards are teaming up to offer a limited edition wine from the California vintner. Available through the Carroll Shelby Merchandise web site, the Shelby Wine Collection features the 2007 DenBeste Vineyards Alexander Valley Zinfandel and 2006 DenBeste

Vineyards-Alexander Valley Cabernet Sauvignon with a variety of bold labels celebrating race winning Shelby cars. Ten percent of the purchase for every bottle or boxed set will be donated to the Carroll Shelby Foundation.

DenBeste Vineyards lies in Northern California's Alexander Valley. An avid Shelby Collector, Bill DenBeste decided to combine his passion of wine and Shelby vehicles in commemoration of the Shelby legacy and to recognize Carroll's contributions to the automobile industry.

Available in the single or multi-bottle Collector Editions, each label showcases a Shelby car. Single bottles feature either the 1965 Shelby 289 FIA (Zinfandel) or Ken Miles MKII GT40 from the 1966 Le Mans victory (Cabernet). The six-bottle, Ultimate Collector Edition includes three bottles each of Zinfandel and Cabernet Sauvignon with Shelby cars on their labels. Multi-bottle sets are shipped in a special Shelby Collectors Wine Case with an official Certificate of Authenticity.

The wine cannot be shipped to AL, AR, DE, KY, MA, MD, ME, MS, MT, NJ, OK, PA, SD, TN, UT, or outside the United States.

UPR EXTREME BUMPSTEER KITS

UPR's Extreme Series Bumpsteer kit for your 2005-2010 Mustang GT and GT500 with power steering offers a wide range of adjustment and is made from high strength 7075 aircraft aluminum and 4340 chrome moly steel.

UPR Products' extreme Bumpsteer kits were engineered to give you the quickest and best installation, without the hassle of drilling the spindle. Highly recommended for all Mustangs that are using the bumpsteer kit: lowering springs, caster camber plate kit, offset rack bushings.

Adjuster sleeves are CNC-machined from 7075 billet aluminum to replace the factory power point opening. Stud is made from 4340 chrome moly steel and zinc plated. Using the latest in diamond-cut technology, which uses a special diamond cutter on the finishing pass, gives you the best looking billet part possible.

Installs in 60 minutes or less. No drilling required. Made in the USA! Fits 2005-2010 GT V8 4.6 5.4 GT500 GT-500 Shelby Bullitt Mustang Steeda Roush and Saleen Vehicles.

Available in blue or black, part numbers: 2007-'09 (Blue); 2008-'09 (Black), priced at \$144.99.

**CLASSIC DESIGN CONCEPTS
 2010 MUSTANG TRIM**

Classic Design Concepts has released a new Decklid Trim Panel and Classic Chin Spoiler for the 2010 Mustang.

Manufactured using RIM technology, the new CDC Decklid Trim Panel can be easily added to a car using 3M Acrylic Bonding Tape; it takes less than 30 minutes to install. Available molded in black or with a textured black finish, it is designed to be installed right out of the box or painted to match any 2010 Mustang.

The CDC Classic Chin Spoiler is built using the same TPO process as the previous generation CDC Chin Spoiler. The new Chin Spoiler can be installed using the O.E.M. attachment scheme and 3M Acrylic Bonding Tape. Molded in black with a light texture, it too can be installed right out of the box or smoothed and painted to color match.

Both the Decklid Trim Panel and the Classic Chin Spoiler will be available in third quarter 2009. The parts can be purchased from CDC under the following part numbers:

Decklid Trim Panel 1011-7005-01
 Chin Spoiler 1011-7001-01
