## NEW PACKAGES FOR A MUSTANG

Text by Mary Jean Wesche  
Photos by Jerry Heasley

In June, Shelby Automobiles introduced four new post-title packages to assist owners in upgrading their 2007-2009 Mustang GT or 2007-2008 Shelby GT.

At Hallett Motor Racing Circuit, we were given the opportunity to drive each one of Shelby's vehicles around Hallett's 1.8-mile, 10-turn Road Racing course. Hallett is a treat to drive, but put the Shelby SR in the mix, and what a super treat it was!

Shelby provided a Shelby SR and a Shelby Supercharged for the event. Each was a dream to drive, they handled the curves well, giving a secure feeling to the additional pavement-pounding power. It's an ideal package for an enthusiast who wants his/her Mustang GT or Shelby GT to handle even better.

The Shelby GT/SR and Shelby GT/SC starts with a post-title Shelby GT, when all the Shelby goodies get installed the car becomes part of the Shelby heritage. Shelby badging is placed on the car, the owner receives a certificate of

authenticity for their records, and the Shelby is included in the registry.

Shelby Automobiles said, "Shelby GT owners were in it from the beginning. There is much passion among the owners who believe they are a significant part of the resurgence of Shelby Automobiles." These owners began asking what they could get for their Shelby GTs to take their cars "to the edge." In true Shelby fashion, the company answered their request, and then some. Although the Shelby GT suspension and exhaust were left alone, other options became available. Shelby Automobiles also announced an unlimited timeframe offer for Shelby GT owners of a 10-percent discount on packages.

Shelby Automobiles also is reaching out to Mustang GT owners who want to be part of the Shelby family.

Beginning with a post-title Mustang GT, owners can choose either Shelby Automobiles, one of their Mod Shops, or an Authorized Ford Dealer to handle the installation. Two packages are available, depending on desired outcome, the Mustang GT then becomes an official Shelby Supercharged or Shelby

SR. The owner then also receives special designation with serial numbering, documentation certificate of the conversion, and their Mustang will be included in the Shelby registry.

Specs on all packages can be found in the Sidebars.

All in all, Shelby has found a way to reach everyone in Mustang Nation with options for anyone's budget.

It just gives all of us one more reason to say, "Thank You" to Carroll Shelby, Amy Boylan, and all the officers and engineers at Shelby Automobiles. **MT**

# RINGS

## NG GT OR SHELBY GT
