CHAMPION PROBLEM-SOLVING SPARK PLUG

Federal-Mogul's Champion® brand offers a proven problem-solving spark plug design, eliminating an engine tuning issue affecting many Ford 4.6L, 5.4L, and 6.8L engines.

The Champion Double Platinum Power™ spark plug (p/n 7989) utilizes a one-piece high-thread design, replacing two-piece plugs utilized in these engines, which can separate during removal, potentially leaving the base trapped within the cylinder head. Champion's one-piece design solves this problem.

In addition to its problem-solving design, the Double Platinum Power plug features an extended ceramic post that virtually eliminates flashover, and an advanced J-gap configuration that's easier to set and helps ensure more efficient ignition performance. The spark plug also features the brand's Heat-Active™ alloy, which enables the plug to more quickly reach and maintain the optimum temperature range.

The Double Platinum Power spark plug is available immediately for 2005-2007 4.6 V8 Mustangs and several other Ford vehicles.

RUST BUCKET AUTO ART

The Busted Knuckle Garage is known for some totally eclectic automotive gear. This art series fascinated me so much, I had to share them with you. Photographed by Dick Reed, they were dubbed "Rust Buckets."

After Dick photographed these cars, he found that they looked like paintings. These awesome images are printed on a photographic media referred to as a Giclee print.

The prints themselves measure, 13 x 19-inches and are fastened to a 20 x 24 x 1/16-inches thick, naturally rusted steel frame. The rusted steel creates an incredible industrial and vintage look at

the same time. Both the print and the steel frame are coated with an Archival spray finish.

There are 22 designs available. Get your velvet Elvis off the wall, it's time for something new.

Allow four weeks delivery for these unique, custom pieces of wall art. Each is built per order.

Priced at \$259 each, log onto www.bustedknucklegarage.com and search for Rust Bucket Art to see all the available designs. You may also call them at 800.708.0897. Be sure to tell them you read about their Rust Bucket art in *Mustang Times*.
