

NATIONAL PARTS DEPOT

HIPO COIL SPRINGS

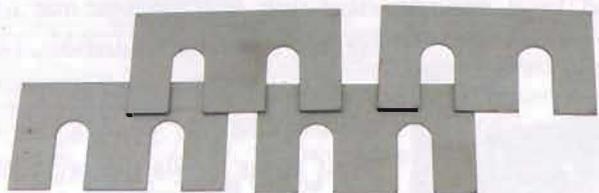

These springs are reproduced for NPD to duplicate the original brown stripe C5ZZ-5310-E spring used on 1965-'66 HiPo; 1965-'66 Special handling and GT options; and 1965 convertibles with 260 manual transmissions. Part #5310-2 retails for \$99.95/pair.

SMOG PUMP DETAILS

Relief valve, concurs correct for '68 200, 289, 302, 428; '69-'0 Boss 32 and 428; and Boss 429. Correct details and finishes. Part # 9B479-2A retails for \$78.95.

Filter fan composed of white plastic, concurs correct for all 1967-'70 Mustang and will fit other year models as well. Part #9B486-2A retails for \$66.95.

FOLDDOWN SEAT LEVELING SHIMS

These correctly cut shims originally were used to level the fold-down seat at the mounting bolts to the floor. Sold in sets of 4, these shims are 1/16-inch thick. Part #613B08-1A Fast-back retails for \$14.95/set of four.

ROUSH® NAMED OFFICIAL OIL OF HOOKED ON DRIVING

Hooked on Driving is one of the premier high-performance driving schools in the country and has had a long relationship with ROUSH® Performance as they promote car control over racing. This association took another step as ROUSH Motor Oil was named the "Official Oil of Hooked on Driving."

"The technicians at Valvoline have helped me to create ROUSH Motor Oil, which I believe is the most advanced lubricant on the market today, and will become the motor oil of choice for those who claim that 'good' isn't good enough for their car," said Jack Roush.

Available in five synthetic blends (5W-20: (API SM), 5W-30: (API SM), 5W-50: (API SM), 10W-30: (API SL) and 10W-40: (API SL)), for all new high-performance or classic flat-tappet engines all have a high zinc content. A straight 40W Break-In Oil is also available for dyno and racing applications. The 2009 ROUSH Hooked on Driving events:

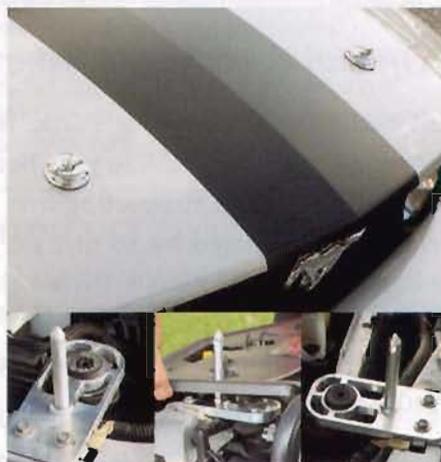

- June 18 – Autobahn Country Club (Joliet, IL)
- June 19 – Pocono Raceway (Pocono, PA)
- June 26 – Thunderhill Raceway (Willows, CA)
- August 30 – Sebring International Raceway (Sebring, FL)

BILLET RADIATOR MOUNT AND HOOD PIN KIT

UPR has done it again with a great new product that not only makes your 2005-2009 Mustang look incredible but also makes it more secure. Their new Billet Radiator Mount and Hood Pin Kit replaces the stock radiator brackets to dress up your engine compartment while offering the ideal place to mount your hood pins. The hood pin mounting plates also feature a two-piece design with a billet top piece and Delrin plastic bottom piece to help protect your hood from the pin being removed.

UPR's kit comes complete with everything needed for a no hassle install and easy pin alignment.

HOW TO REBUILD THE SMALL-BLOCK FORD

The Small-Block Ford remains one of the most popular engines from early Fairlanes and Mustangs to the latest Mustangs and light trucks. With a plethora of aftermarket support and rebuildable cores available, it's no longer necessary to spend an excessive amount of money to do a quality rebuild, especially if you handle the teardown and reassembly yourself.

How to rebuild the Small-Block Ford, authored by George Reid, guides you through a rebuild including: planning, disassembly, inspection, choosing parts, machine work, assembling your engine, first firing, and break-in. Helpful hints, in workbench format, assist with performance upgrades and tips on problem areas, professional builder tips, special tools, and more. The 144-page softbound book contains 495 color photos, and retails for \$24.95.

KICKER® AUDIO UPGRADES

KICKER® Performance Audio system upgrades are now available for purchase for most Ford® Mustang models exclusively through Shelby Performance Parts® dealers nationwide. Upgrades pertain to all 2005-2009 Mustang coupes*, with inclusion of 2010 models coming soon. Shelby GT and GT500 owners can contact Shelby Automobiles® about specific KICKER upgrades and to have them included as part of the car's official Registry.

Kicker upgrades also reduce overall vehicle weight. The subwoofer upgrade is only half the size of a Mustang's stock sub, reducing the subwoofer weight by 60 percent. The sub enclosure also increases carbo space by fitting snugly against the inner trunk well.

Mustang owners can purchase this upgrade kit at the Shelby Performance Parts website: www.shelbyperformanceparts.com or contact SPP at: 702.405.35000.

Shelby owners can contact Shelby Automobiles on the internet at www.shelbyautos.com or call 702.942.7325.
