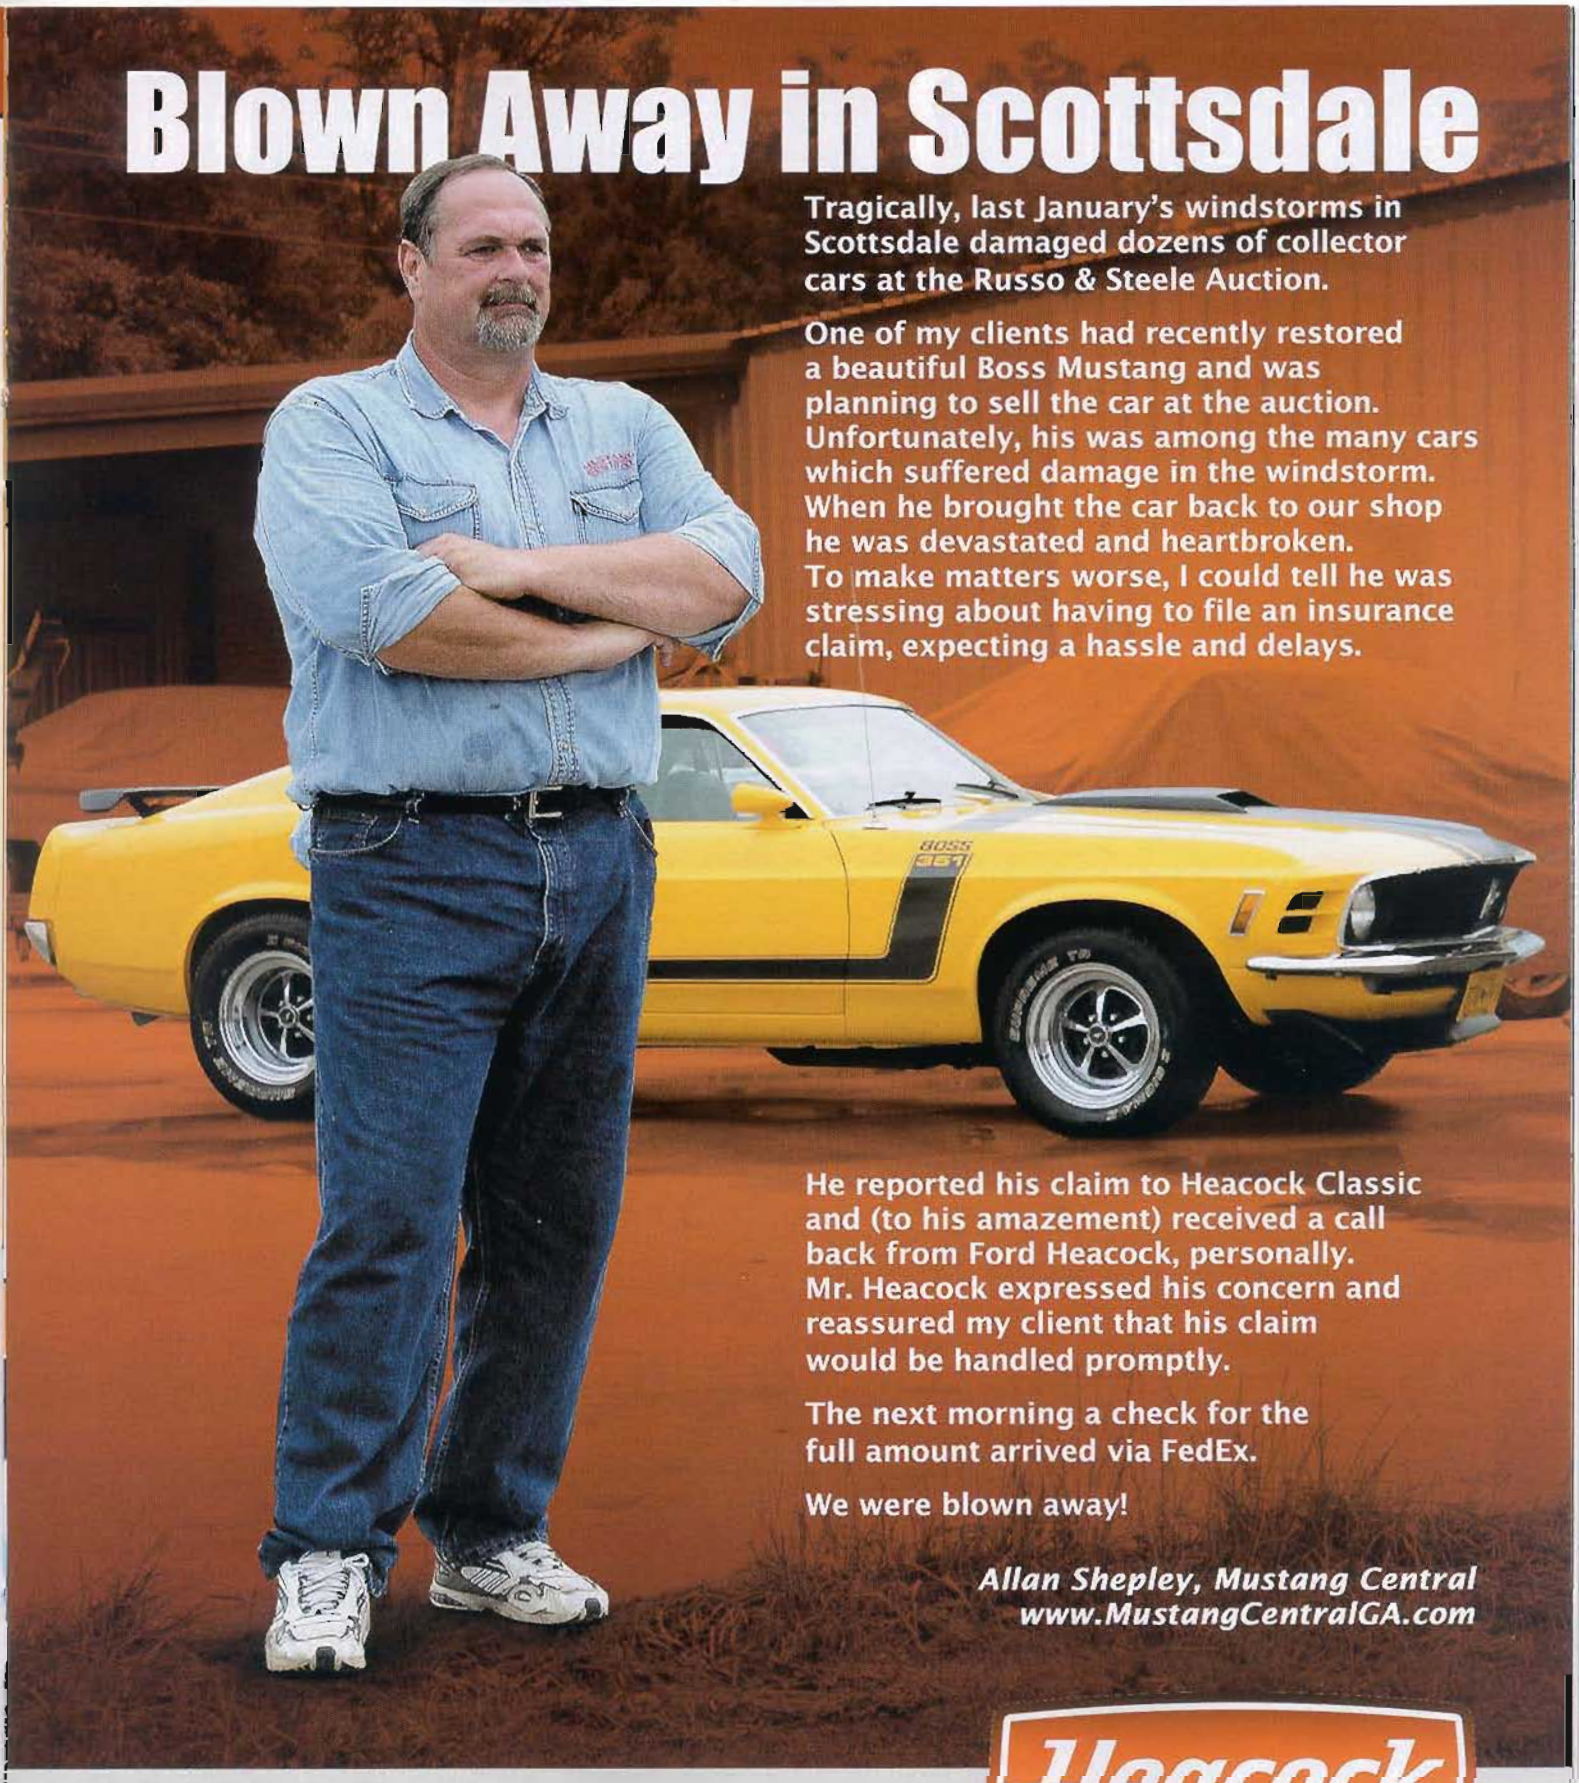
Blown Away in Scottsdale



Tragically, last January's windstorms in Scottsdale damaged dozens of collector cars at the Russo & Steele Auction.

One of my clients had recently restored a beautiful Boss Mustang and was planning to sell the car at the auction. Unfortunately, his was among the many cars which suffered damage in the windstorm. When he brought the car back to our shop he was devastated and heartbroken. To make matters worse, I could tell he was stressing about having to file an insurance claim, expecting a hassle and delays.

He reported his claim to Heacock Classic and (to his amazement) received a call back from Ford Heacock, personally. Mr. Heacock expressed his concern and reassured my client that his claim would be handled promptly.

The next morning a check for the full amount arrived via FedEx.

We were blown away!
