

FIVE-O

Jim Sheats • Maryland • MCA #47160

Our 1993 Mustang LX 5.0 has long since become part of the family. Purchased in 2000 as my daily commuter with just one previous owner, she's been a trouble-free ride for almost a decade. There were 37,000 miles on the clock and in it was in original condition, except the Flowmasters of course. With a build date of 7/28/93, she must be one of the last Fox Body Mustangs produced. As with any family member, we gave the Mustang a name, "Five-O."

After owning the Mustang for a year or so, we discovered the wonderful world of Mustang shows. We first attended shows hosted by the National Capital Region. Five-O did very well in concours judging, earning two second place awards. Through that club, we discovered the MCA and the Daily Driven class. My Wife Nancy (the wheel cleaner) and I were now on our way to National shows all over the USA. We have driven from Massachusetts to Florida, as far west as Missouri, and everywhere in between. Along the way, Five-O has been awarded seven first place awards and one second place award over four years on the MCA show circuit (2002-2005).

Finally, after years of parking the car in the far reaches of the office parking lot, I decided it was time to retire Five-O from

daily driven life and thus competitive judging. In May 2005 Five-O was awarded the MCA retirement plaque which was presented at the Huntsville, AL, show. We continue to show the car in the MCA retired class every chance we get. The three of us thoroughly enjoy the MCA shows and all the great people and cars associated with them.
