

AUTOGLYM PREMIUM CAR CARE

We recently showed you the newest car care products from Autoglym. Since then we tested more of their products. I have to say, they are some of the best car care products that I have used. Autoglym has brought the concept of Royal Valeting to American auto enthusiasts. What we call "auto detailing" is what our British friends call valeting.

Autoglym products are easy to apply, and easy to remove. Additionally they are durable.

The latest addition was the Bodywork Shampoo Conditioner, Custom Wheel Cleaner, Rapid Detailer and High Definition Wax.

BODYWORK SHAMPOO CONDITIONER

Bodywork Shampoo conditioner contains a blend of surface-active ingredients to lift "traffic film" without harming the finish of your Mustang. Additional ingredients cover the surfaces by electro-molecular attraction forming a glossy water repellent barrier.

CUSTOM WHEEL CLEANER

Custom Wheel Cleaner is a fast, safe, and effective wheel cleaner which easily restores dirty wheels to original showroom shine. This product has a special blend of surfactants, solvents, and alkalis that work together to loosen corrosion, dissolve brake dust and road grime.

RAPID DETAILER

The Rapid Detailer is an easy-to-use spray-on solution that will remove light soiling, restores showroom shine and adds a layer of protection to the bodywork, plastic trim, and glass. Priced at \$13.49, the Rapid Detailer gives added gloss depth to a just-cleaned car, or you can use it between washes to bring a vehicle back to tip-top condition. This is a perfect product to use at a show to remove fingerprints and dust.

HIGH DEFINITION WAX

High Definition Wax is made with a technology breakthrough, taking shine and protection of your prized Pony to the next level. This long-lasting, high-protection wax produces unparalleled lustre and depth of shine. Previously only available in Europe, Autoglym introduced the product to the American market at the 2009 SEMA show. Over four years of research and development is behind this product, which is made from a blend of durable polymers, Carnuba and microcrystalline waxes, hydrocarbons, and oils. Autoglym states High Definition Wax will protect a vehicle's surfaces six times longer than the average wax.

All Autoglym products can be found at your local Auto Parts Stores or by calling Autoglym at 305.266.3887

MUSTANG LOLLIPOPS

My Idolpops, LLC recently introduced the first-ever Ford Mustang lollipop, officially licensed by the Ford Motor Company. Working closely with the Ford Motor Company, My Idolpops created an exact replica of the 2010 Mustang in a one-ounce lollipop. Every feature is mirrored with great detail, from the grille, to the tires, and body design.

The lollipops have been featured at several Mustang events to rave reviews. Organizers across the country, from California to Florida, are using the Mustang lollipops to give away as promotional items or to sell. The lollipops are unique, made in America, and are a cost-friendly souvenir item. After a recent Mustang show in Florida, Pat Rego of Imperial Mustangs of Polk County enthusiastically stated "everyone loved the lollipops" and in California, organizers reported that the lollipops were "definitely a great addition to our Power Mall".

My Idolpops, LLC is a Los Angeles-based company that creates custom-designed lollipops of America's favorite stars and icons. "We take great pride that all our lollipops, including the packaging, are made in the U.S.A., which I'm sure all Mustang fans will appreciate", said a company spokesman.

The lollipops are sold in a box of 24 in three popular flavors.
