

KICKER COMPVX™ SUBWOOFER

KICKER® has allocated most of the performance and power of its patented square-woofer technology into a round subwoofer with the further development of the KICKER CompVX™ Subwoofer, creating a technologically advanced round subwoofer available for those that prefer the circular look in their installation. In 2010, the CompVX has been updated to solidify its standing as the best-sounding, deepest-bass-producing round subwoofer.

Kicker performance audio systems, a division of tillwater Designs and Audio, Inc.®, are available for the home and audio aftermarket at authorized dealers worldwide, and also through original equipment manufacturers.

UPR BILLET DIFFERENTIAL COVER

Get the Ultimate Differential Cover for your 1979-2010 Ford Mustangs 8.8-inch rear end with this solid Billet Rear Differential Cover from UPR Products. This cover starts off as a solid piece of Billet Aluminum and is machined to fit the 8.8 housing. Featuring fill and drain ports for easier maintenance, bearing support to eliminate main cap deflection and all tying together the 8.8" housing for the ultimate in strength. Perfect for Street and Race cars. Low profile design clears 2005-10 Mustangs with and without Panhard bars and the spare tire well on the 1979-'04 Mustangs.

Installation time is 30 minutes or less with basic hand tools and automotive-grade oil-resistant silicone (not included).

* Does not fit IRS equipped 8.8 rear ends

BARRY GRANT SPEED DEMON™

The Speed Demon™ series is the most formidable performance street carburetor available today. It features the most advanced design manufacturing processes that will provide street enthusiasts with racing carburetor technology in a very driveable package.

The Speed Demon™ line offers a wide range of sizes and VE-series (vacuum secondaries, electric choke) or twin-squirter (mechanical secondaries) designs. Across the range of sizes, from 575 cfm to 850 cfm, the Speed Demons deliver balanced, high-velocity airflow and exceptional fuel metering capacity to match the fuel requirements of most street engines.

The Speed Demon™ carburetor is ideal for muscle cars, stock rebuilds, tow trucks, mild performance applications and crate motors.

MEGUIAR'S® GOLD CLASS™ LEATHER CLEANER/CONDITIONER

Maintaining the look and feel of fine leather is now more convenient, with the introduction of Meguiar's® Gold Class™ Rich Leather Cleaner/Conditioner. This technologically advanced leather formula allows enthusiasts to safely clean, deeply nourish, and protect leather surfaces in one step, without the white residue that some leather lotions leave behind.

While the cleaning agent removes dirt and grime, the water-resistant formula protects hundreds of different leather surfaces from heat exposure, damaging UV rays, stains and spills. Meguiar's Gold Class Rich Leather Cleaner/Conditioner contains the highest levels of luxurious, rich moisturizers and nutrients, including aloe, to pamper fine leather and help prevent premature aging and fading. This premium formula

comes packaged in a convenient pump dispenser for quick and easy application.

To order Meguiar's products, please visit the new e-Store at www.meguiarsdirect.com; or you might find them at your local automotive accessories store.

COKER TIRE/WHEEL COMBO PACKAGES

In 1974, Corky Coker was handed the reigns of the fledgling antique tire division of his father's Chattanooga-based B.F. Goodrich dealership. He sold vintage tires, which represented less than five percent of the company's total business, out of a 500-square-foot space at the back of the retail center. Today, Coker Tire's antique tire division accounts for 95 percent of the business and is the world's largest and most prominent supplier of antique and classic tires for automobiles, trucks and motorcycles. Coker ships tires to every state in the U.S. and more than 40 countries. The company now occupies several buildings in the historic Southside district of downtown Chattanooga and there's a Coker Tire operation located in Fresno, California as well.

In addition to valve stems, car, truck, motorcycle and bicycle rims, and just about any tire you can imagine, Coker offers tire and wheel combo packages. Purchase a Tire & Wheel package (4 or 5 tires) and they will use precision computer equipment to mount and balance each set in your order, free of charge. Using Nitrogen for inflation is an added benefit offered.

Your order will be shipped directly to you. One of the Coker's most popular is the Steel Rallyes & Coker Dual Red Radials as shown here.

DYNOMAX® PERFORMANCE EXHAUST

The 2010 Ford Mustang GT can gain even more horsepower and torque plus great looks through the addition of any of the new performance exhaust systems available from DynoMax® Performance Exhaust. The new cat-back systems are available at performance retailers nationwide.

Boosting horsepower by 20 and gaining 18 lb-ft of torque, the new axle-back Ultra Flo Welded system for the 2010 Mustang (p/n 39488) includes 2 1/2-inch stainless steel piping, routed to match OE piping for easy installation and trouble-free performance, and new 3 1/2-inch stainless slant-cut specialty tips. The system includes a pair of DynoMax Ultra Flo Welded mufflers, a straight-through, unrestricted design that is dyno-proven to support up to 2,000 SCFM and 2000 horsepower. These mufflers are 100-percent welded for exceptional life and durability, and also include exclusive Continuous Roving Fiberglass technology to absorb unwanted interior resonance and provide a rich, deep performance tone.

The new stainless system for 2005-2009 Mustang GT models (p/n 39414) features the DynoMax Ultra Flo Welded mufflers, 2 1/2-inch pipes and brand-new style 3-inch tips. This system posted a gain of 6 horsepower and 8 lb-ft of torque during recent dyno testing.

All DynoMax systems include OE-quality hangers and brackets for easy, fast installation.
