### Automotive Technician Certificate

The Automotive Technician Certificate Program (32 weeks) covers all eight areas of training required by ASE/NAFTEF. Classrooms are designed to allow a vehicle in the room with the students. The facility has a down draft paint booth, a chassis dyno, a number of hydraulic lifts and most automotive equipment in use today including alignment, tire changing and general maintenance tools.

This facility is the only automotive technical training in the world that is endorsed by Carroll Shelby. It is located approximately 20 miles north of Carroll's hometown of Leesburg, Texas.
