

HOT PURSUIT®

GreenLight collectors breathed life into an entire police-themed product line. In August '09, 1:64 Hot Pursuit® hit mass market stores, hobby shops, and the display cases of diecast fans. GreenLight created an extremely limited edition collector piece that highlights police and patrol cars from 10 departments.

Every vehicle in the pack is a recreation of an authentic SSP, making 1:64 Hot Pursuit® 10-Car Pack the Authentic Police Department Diecast Collectible.

1:64 Hot Pursuit® 10 Pack Assortment includes:

- 1977 Dodge Monaco – Washington State Highway Patrol
- 1988 Mustang – Missouri State Highway Patrol
- 1988 Mustang – Utah Highway Patrol
- 2009 Dodge Charger FBI Police – Washington DC
- 2009 Dodge Charger – Reno, NV Police
- 2009 Ford Police Interceptor – Bismarck, ND
- 2009 Ford Police Interceptor – Cheyenne, WY
- 2009 Ford Police Interceptor – Juneau, Alaska
- 2009 Ford Police Interceptor – Kissimmee, FL
- 2009 Ford Police Interceptor – Vermont State

These 1:64 diecast replicas feature detailed engines, real rubber tires, metal body and chassis, detailed graphics, custom license plates and are officially licensed by the respective auto manufacturers. The release is scheduled for September 2011 and will be available through Toys 'R' Us.

UPR BILLET SHIFTER

Get quicker shifts with UPR's all new 6-Speed Billet Manual Shifter for your 2011-2012 Ford Mustang. UPR's new Billet Shifter sports a 20% shorter throw. Why settle for the stock soft feeling shifter from the factory when you can have a strong firm positive feeling with this Billet Shifter?

CNC Machined from 7075-T6 Billet Aluminum makes it the strongest shifter on the market. Installation takes 30 minutes or less. It will fit the following Mustangs: 2011-2012 V6 and GT Mustang, Steeda, Roush, and Saleen Vehicles.

- UPR's new shifter retails for \$139.95 and is proudly made in the USA!

**PERFORMANCE AUTOMATIC
C4 COYOTE DRAG PACK SYSTEM**

Performance Automatic's "C4 Coyote Drag Pack System" transmission package is designed to complement Ford's new 5.0 Coyote Engine. We start off with our C4 Super Comp transmission, which is rated to 1000 horsepower and has a lifetime warranty and added our SFI Pro Fit bellhousing. We also include our SFI certified Coyote flexplate, matching block plate, lock top dipstick and filler tube, bellhousing and flexplate bolts. Completing the "Drag Pack" is our 10-inch Pro Launch converter custom designed to enhance the unique performance characteristics of the Coyote engine and built to your specs with anti-ballooning plates and a billet cover.

Our "C4 Coyote Drag Pack System" is a combination of the highest quality parts we offer and was created to be a direct bolt up. Accepted in many NHRA, IHRA, NMRA and NMCA classes; our "C4 Coyote Drag Pack" will provide you with the performance, consistency and reliability you are looking for. Backed by our "Guaranteed Forever Lifetime Warranty," this is the transmission package to have.

**DEEP ALUMINUM TRANSMISSION
PAN AND DIPSTICK/FILLER TUBE KIT**

Performance Automatic is proud to announce its new Deep Aluminum 6R80 Transmission Pan and dipstick/filler tube kit for all the 2011-12 Mustangs. Not only

do we supply a dipstick and filler tube that the factory excluded, we produced a pan that holds approximately 3 extra quarts of fluid. The rugged, yet good looking, cast aluminum construction not only adds strength and structural integrity to the trans but helps dissipate heat and keeps the fluid cooler. The pan also comes with a drain and the ability to fill and check your fluid level, so normal servicing becomes easy. The extra fluid this pan accommodates also allows the torque converter to lock up better with some added horsepower and help the transmissions efficiency when the pressures are turned up. The PA68402 is a direct replacement and is easy to install with simple hand tools.

- PA68402 – 6R80 Deep Aluminum Pan and Dipstick/Filler Tube Kit, fits all 2011 and 2012 Mustangs.

POLY/ROD ADJUSTABLE PANHARD ROD FOR THE S197 MUSTANG

Precisely locate the rear axle housing in your 2005-2011 Mustang chassis with a Poly/Rod Adjustable Panhard Rod from BMR Suspension. Manufactured from heavy wall 1.25-inch DOM tubing and a 3/4-inch diameter, chrome-moly double adjuster, this panhard rod utilizes a high-durometer polyurethane bushing on one side while using a chrome moly 3/4-inch QA1 rod end on the other side.

The BMR Poly/Rod Adjustable Panhard Rod (PHR013) allows bind-free rear end articulation without compromising sound or ride quality. Additionally, this design allows on-car adjustability to easily locate the rear axle housing on lowered vehicles. Installation time is less than one hour.

- Available in black hammertone or red powdercoat, part # PHR013 retails for \$169.95.

ALL METAL WHEEL POLISH

In an effort to answer one of the most common car care questions, Meguiar's® introduces its new All Metal Wheel Polish, a product that transforms dingy, oxidized wheels into like-new shape in just minutes.

The all-new wheel cleaning formula acts quickly to remove oxidation without scratching and can be applied with either Meguiar's® DynaCone™ polishing tool or by hand. Leaving metals stunningly bright, this new product uses gentle polishing oils to achieve a perfect shine every time.

For use on all uncoated, polished or chrome metals, Meguiar's® All Metal Wheel Polish is safe to use on cast aluminum, magnesium and billet alloy.

Meguiar's® All Metal Wheel Polish is not intended for use on painted, clear-coated wheels or chrome plated plastic, but is the ultimate solution for consumers searching for a way to keep their metal wheels looking new.

Meguiar's® car care products can be found at your favorite auto parts retailer.

- Power side mirrors - 2 wheel drive - 4 wheel drive
- Power windows - 2 wheel drive - 4 wheel drive
- Power door locks - 2 wheel drive - 4 wheel drive
- Power side mirrors - 2 wheel drive - 4 wheel drive

Better optional equipment ideas like these:

- New 300-hp, 16 V-8 - new power, performance and fuel economy
- New 200-hp, 16 V-8 - new power, performance and fuel economy
- New 150-hp, 16 V-8 - new power, performance and fuel economy
- New 100-hp, 16 V-8 - new power, performance and fuel economy
- New 75-hp, 16 V-8 - new power, performance and fuel economy
- New 50-hp, 16 V-8 - new power, performance and fuel economy
- New 25-hp, 16 V-8 - new power, performance and fuel economy

Ford

Marti Auto Works is proud to offer exact reproduction of the original window sticker that came on Ford, Lincoln and Mercury vehicles. Every window sticker is painstakingly researched to provide the correct look and accuracy. This includes; correct paper weight, correct pin-punched holes, the correct terminology, listing order for options and correct dealer information. The Marti Auto Works research also accounts for any mid-year layout and pricing changes.

Because of Marti Auto Works unique relationship with Ford Motor Company, they are able to create every window sticker correctly. This means the correct fonts, correct ink soaked ribbons and correct reproduction forms. The verbiage is in proper Ford order with all options listed in the unique order designed by the Ford Motor Company.

"Many people we spoke with wish that they had the original window sticker for their Ford Motor Company vehicle to add that special touch at shows and events," stated Kevin Marti, Marti Auto Works President. "Now enthusiasts can have the next best thing, our reproduction window sticker. There is not any guess work with our window stickers, they are exactly as originally produced by Ford." Marti also noted, "These documents are produced under license with Ford Motor Company, your assurance of quality and accuracy."

Marti Auto Works has provided the finest quality restoration products that meet or exceed original design specifications at auto supply prices including; Marti Reports, door data plates, belts, hoses, stripe kits, spark plug wires and battery cables as well as the new expanded 1979-1986 Marti Reports for more than 28 years.
