It was the most amazing 29 month period in the entire history of the automobile, those 2-1/2 years when Mustang fever held the nation. This is the book that contains that amazing story, told as it unfolded month by month — initial design, Job #1, the immediate buying surge and instant short supply, '64 World's Fair and Indy, the continuing drama of Ford's struggle to build enough to meet demand, Mr. Shelby's GT 350, the millionth Mustang built — with all 49 period Mustang ads placed in sequence to further make this book the most rewarding remembrance of those magic '64 - '66s days when Mustang fever captivated the nation like nothing before or since.

Cost (postage included) is just \$35 per book
