

PERFORMANCE AUTOMATIC**C4 REVERSE MANUAL TRANSBRAKE VALVE BODY**

Performance Automatic released a *C4 Reverse Manual Transbrake Valve Body*. Custom designed from Billet aluminum with an internal solenoid, this valve body will fit all 1970 and up C4 transmissions. Complete, easy to bolt in and ready to install without making any internal transmission modifications.

When you need to leave the line hard, Performance Automatic's transbrake valve is second to none. Famous for its "no 2-3 flare," its consistent release and its ability to hold without "creeping, the *PA26306 C4 Reverse Manual Transbrake Valve Body* is the one to have when you need to "Shift the Best."

Performance Automatic also offers a full line of transmissions and related components.

"SMART SHAFT" DRIVESHAFT FOR 2011 MUSTANGS

Performance Automatic is now offering a one-piece aluminum driveshaft for the 2011 Mustang GT and Shelby GT500. This shaft fits automatic and manual transmissions. It's a direct bolt in, complete with aluminum adapter, 21-pounds lighter and rated to handle 900hp. This is the shaft you want, it has no vibration or clearance issues. This driveshaft is built to the highest standards in the industry.

- 2011 Mustang GT part number PA27462
- 2011 Mustang Shelby/GT500 part number PA27463

FOX MUSTANG HOOD STRUTS

MRT introduces hood struts for 1979-'93 Fox Mustangs. MRT's Hood Struts eliminate the factory hood prop rod and provide a clean, functional, performance look. They are the first hood struts for Fox Mustangs on the market and are designed, engineered, and manufactured in the United States.

MRT's Fox Mustang Hood Struts reuse the factory attachment points and are a direct bolt on. They do not require any holes to be drilled. The hood struts are easy to install and require only a 10mm wrench.

The MRT Hood Struts are available in all exterior vehicle colors or a high-tech, black, carbon fiber look.

EAGLE ONE WIPE & SHINE

Eagle One Wipe & Shine makes it quick and easy to detail, protect and restore shine between washes and waxes. Just spray on and wipe off and the result is a "just-waxed" look.

The exclusive micro-emulsion formula lifts dust while providing lasting shine and UV protection with no white residue.

Advanced protection polymers can last one month or longer.

Wipe & Shine safely lifts dust, pollen, bird droppings and water spots.

For a fast and easy way to obtain a great wax, Eagle One offers Wax-As-U-Dry featuring an exclusive carnauba-based formula. Spray it on a wet vehicle, wipe off and the result is a showroom shine and durable protection in ten minutes.

Wipe & Shine is available in a 32oz. spray bottle at leading auto parts retailers.

Suggested retail is \$5.49.

UPR BILLET CATCH CAN KIT

UPR's new Billet Catch Can Kit for a 2011 Mustang 5.0 was developed to eliminate oil from entering the intake by engine blow by, which channels oil and trash

into the direct air stream from the valve train. This is a common problem on both brand new and especially older engines, which just suffer more from blow by due to wear and tear.

The UPR Oil Catch Can is CNC machined from 6061 Billet Aluminum in a brushed satin finish and features a 3-chamber design—unlike models that are single chamber tanks that don't properly trap the oil or debris. It installs in 15 minutes or less, measures 4.75 x 2/5-inches, and improves fuel economy. The kit includes 5/8-inch Delrin 90 degree fittings and 5/8-inch hose and is made in the USA!

• **Part Number: 5032-23, suggested retail: \$109.99.**

FORD MUSTANG AVIATION DIORAMA

The New Year brings many treats to the GreenLight Collectors and the first series to utilize this fresh feel is 1:64 Dioramas Series 4.

Mustang AV's displays two aviation inspired automobiles. The AV8R and AV-X10 were both one of

a kind offerings from Ford Motor Company to commemorate their support of the Experimental Aircraft Association (EAA). Both rare machines feature a glass roof, special front and rear fascias, custom wheels and V8 engine. The AV8R debuted at the 2009 Oshkosh, Wisconsin Air Show and the AV-X10 was inspired from the P-51 Mustang Fighter planes from WWII. Both cars were sold at the EAA Gathering Eagles Charity Auction.

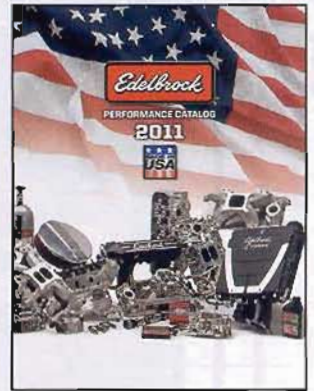

The diorama retails for \$9.99.

2011 EDELBROCK PERFORMANCE CATALOG

Edelbrock LLC, known for it's American Made performance parts, has released their 2011 edition of the Edelbrock Automotive Performance catalog.

New for 2011 Edelbrock is offering their catalog in a new media rich format that can be viewed online or on your smart phone, including iPhone®, iPad®, and Droid® applications. National Sales Manager, Jason Snyder commented, "this new viewing platform really makes the transition from a traditional print catalog to a modern digital presentation both interactive and user-friendly. Features like our page flip provide the feel of a traditional print catalog, while modern features like quick links make it easy to navigate. Videos have also been added to enhance the customer experience. We're very excited to provide the Edelbrock catalog in a format for the digital age."

Edelbrock catalogs are available in print or on CD for free and viewable online now. Features include: 208 pages of Edelbrock American performance parts and accessories in an all-new designed catalog with hundreds of new products

• **Available FREE online, in print part #09211 or on CD part #09011.**

CORSA GT500 EXHAUST

The CORSA Mustang Shelby GT500 Exhaust is a dual rear exit system that is manufactured in the United States and features double wall, 4-inch

Pro-Series tips etched with the CORSA logo. Engineered using CORSA's patented Reflective Sound Cancellation™ (RSC™) technology, the exhaust system is designed specifically for Mustang owners to provide a bold exterior sound without unwanted interior drone.

CORSA's GT500 exhaust system has a straight-through, nonrestrictive design that delivers an increase of 14 rear wheel horsepower and 16 lb-ft of torque.

Complete installation hardware and instructions are included with the 2011 Mustang exhaust systems and a Limited Lifetime Warranty protects the exhaust for the entire life of the vehicle.
