

The real thing

1969-1970 Ford Mustang console assembly shown with compartment lid. Lid sold separately.

Precise reproduction of The real thing

These concourse quality consoles are made of paintable black ABS plastic and are injection molded just like the originals with the correct grain surface. Optional components include console base support brackets, upper console panel, front ash tray and holder, 1969 style compartment box, and cigarette lighter assembly.

Daniel Carpenter Mustang Reproductions has been manufacturing molded plastic and rubber parts, weather stripping and stamped metal parts since 1983 and has created a tremendous variety of show quality 1965-1993 Mustang restoration parts.

For quality assured Mustang parts look for the Original Ford Tooling and Daniel Carpenter labels

As a wholesale company, Daniel Carpenter Mustang Reproductions makes Original Ford Tooling and reproduction parts available to the public through a network of Mustang parts suppliers world wide.
