

Back in 1965 when the Mustang Fever was running high, many people caught the cure. One of them was a jeweler here in the northeast. With his newly found enthusiasm he produced some Mustang jewelry. Now some 15 years later it's back!

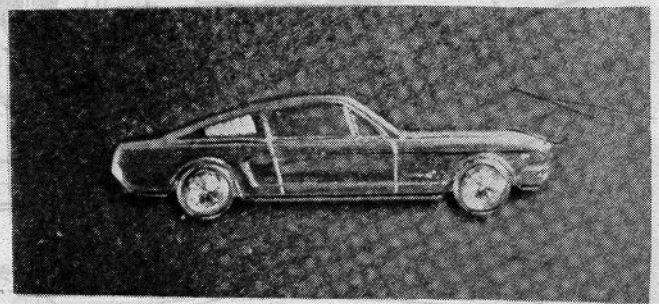

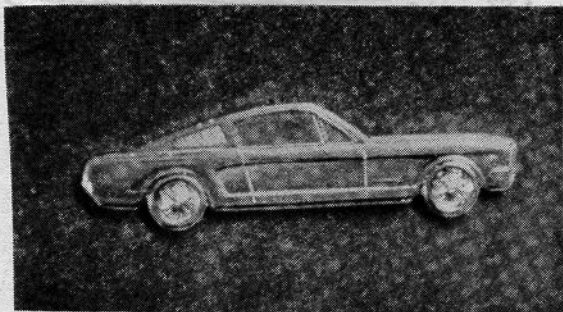

Chris Hoverman of Mustangs Unlimited just happened to meet up with this gentleman. After some arm-bending this jeweler is back making Mustang pins. The pin comes in either silver or gold-plate and can be worn as either a pin or tie tac. Measuring  $1\frac{1}{2}$  inches, it has to be among the smallest 1965 fastbacks ever produced.

Mustangs Unlimited now has an ample stock of these and are ready for mailing. As a special offer, he is offering the pin for \$4.75 which includes postage. You can order this by mail, phone or in person using either cash, checks, charge cards or C.O.D. Below is the address and phone numbers;
