

MEAN MACHINE

To all who are interested:

Mean Machine Magazine is a New Car, Speed Boat & Cycle Magazine. We hope to offer as much as any other Car Magazine and more. We will not only cover regular cars and cycles, but we will also cover Choppers, Trikes, Speed boats, Four Wheel Drives and Vans. We hope to be the first to test Nitrous Oxide on a Moped and a Diesel in a Motor Cycle. If there is such a thing as a Blown-Go-Kart, we will find it and show it to you. We will be showing you things from professional Road and Drag Racing to the Hot Heep built in your neighbor's garage. This Magazine will give the Rotary and Diesel engines equal time to the workings of a Turbine Powered Jet Car and the National Tractor Pulling Contest. We'll show you the do's and don'ts of Engine building and how to Hot Rod your engine for the smallest budget to the person who has money to burn. Right now Mean Machine has its own test car in the making, a 450 horse power Rotary Mazda built to run on the street and we will be giving you the first look at it and its performance potential. All we can say is, if it is Mean it will be in our Magazine!!

If you are interested in our New Magazine, send name and address to: MEAN MACHINE MAGAZINE, 38591 CANYON HEIGHTS DRIVE, FREMONT, CA 94536. You will then be placed on our mailing list and we will notify you when we are accepting subscriptions, which will be \$10.00 for 12 issues for one year.

Respectfully,

Paul Coleman
Managing Editor
