

A Word from the Head Judge

Now that the 1982 show season has concluded, we would like to have your input for some possible changes for 1983. Some of these changes have been suggested by club members, and some of them have been discussed in the past by the National Board of Directors. Please take a few moments to answer the questions below and send to National Headquarters. We would like to hear from everyone.

Please respond as soon as possible, as we would like to publish the outcome of this questionnaire in the January issue of the *Mustang Times*.

1. Have you ever attended a MCA sponsored show?
 - a. Yes
 - b. No
2. Have you ever had a car entered in competition in a MCA sponsored show?
 - a. Yes
 - b. No
3. Have you read the 1982 judging rules and classes used at all MCA sponsored shows that were printed in the February 1982 issue of the *Mustang Times*?
 - a. Yes
 - b. No
4. If we were to change the number of awards given out in each class, which would you prefer?
 - a. Give multiple 1st, 2nd, and 3rd place awards to cars that score within 5 points of each other and consider them ties.
 - b. Use 500 points as a perfect score so that any car receiving 490 points is a 1st place car and so on down the line.
 - c. Give 4th and 5th place trophies rather than having ties and giving away multiple 1st, 2nd, and 3rd place awards.
5. After a car has met the qualifications (two 1st place awards or one best of show at the MCA sponsored show) for the Senior Division and won three 1st place awards in Senior competition should the car be:
 - a. Forced to retire from competition and given a preservation award for continuing to participate
 - b. Have the option of further competition or retiring the car.
6. Do you think we should leave things the way they are?
 - a. Yes
 - b. No
7. After years of giving away large trophies that seem to grow larger each year, do you think it would be more practical to standardize the awards and give away plaques instead of trophies?
 - a. Yes
 - b. No

Mustang, The Performance Years

Documenting Mustang street (and race) high-performance cars and engines from the first Mustang I in 1962, through the Boss Years and on to the last "full-size" Mustang in 1973, this new addition to the *Quicksilver Supercar Series* is highlighted by the complete technical and design story behind the legendary Mustang I sports car.

In addition to year-by-year coverage of all the Mustangs and technical papers on their engines, there is material on all Shelby cars, factory prototypes, and production figures, details and photos of rare cars. This includes the "mule" car for the factory Trans-Am racing program and action photos of the one and only Shelby notchback Mustang.

The complete factory story behind the design and marketing of high-performance cars is told in a section authored by one of Ford's top engineers. Fully-illustrated and featuring a color photo of the '64½ Mustang Indy Pack car on the cover. *Mustang, The Performance Years* is available at major bookstores or can be ordered directly from Quicksilver Communications, Inc., 167 Terrace St., Haworth, NJ 07641. \$8.95 plus \$1.00 postage and handling.
