The Rev. Ronald C. Powell of La Porte, Indiana and his sons, Ronnie (center) and Johnnie, can't decide which is best — the boys' pedal car or Dad's 1966 Shelby GT 350 H. Dad restored the pedal car as a 1966 Shelby GT 350 convertible, complete with hood and side scoops, Candyapple red paint and Wimbledon white LeMans stripes. The boys have two other cars they plan to pedal a while before Dad restores them. The trophy, however, belongs to Dad's red Shelby which has 50,700 original miles. It is for second place in the Cavalcade of Wheels, won at South Bend in March, 1981.

the absorber

An incredible product that ends the search for a way to dry things better than terry towels and the **ABSORBER** doesn't require any special care and lasts longer than chamois... AND IT ISN'T EVEN EXPENSIVE!

The **ABSORBER** is an incredible product that is much better than chamois, towels or sponges for most wiping, drying and cleaning jobs. Why? The material is PVA - it has incredible porosity plus excellent chemical resistance.

The **ABSORBER**: Dries anything FASTER - picks up "instantly" • Holds MORE water • WRINGS out more EASILY than towels or chamois • Is SUPER STRONG - resists tearing and ripping • Is very SOFT - won't hurt delicate finishes • Can be MACHINE WASHED - with regular laundry • Is RESISTANT to most CHEMICALS • Is UNAFFECTED by GREASE and OIL • Stores wet - always READY TO USE.
