

Super Cars, ? Owners

My wife and I were jubilant over the fact we chose the same weekend to be in Atlanta that your club event was scheduled. We even changed hotel accommodations, in order to spend more time marveling at your wondrous feats of creativity and restoration.

The whole show seemed to exuberate excitement and showmanship. If my wife and I had only looked at the cars and gone home, our opinion would have been considerably different.

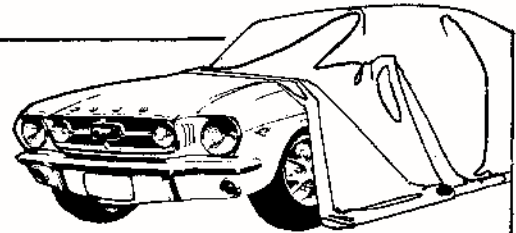

Like all apples in a barrel, some are rotten. My wife and I must have met them all. It seems they have forgotten two important items: 1.) They are human beings too, and 2.) Without others to admire your works of art, your own feelings of accomplishment can't be shared or reinforced.

I'm sure these people aren't "True Mustangers," they simply had enough money to purchase someone else's creation and effort. A true creator gains pride over another's admiration, not conceit.

Paint Problems

My name is Al Stewart. I live in Memphis, Tennessee and am a member of Mustangs of Memphis. I own two 1966 pony cars, a 2+2 and a coupe. Both are in excellent condition. I have learned a lot by first making mistakes and having to correct an error, in this area. Most paint and body shops around here either won't or can't paint a Mustang properly. I would rather see a Mustang with original paint in poor condition than

a bright paint job and paint all over everything in a trunk and door jams. I hope that other Mustangers will take the extra pride in refinishing their cars to protect their investment and sport. This will pay off every time.

Keep up the great job on the magazine. The cover this month (June) with the blue convertible is the best looking cover yet. Thank you.
