

Authentic Reproduction Rally Pacs by Autoworks Makes the Choice Simple!!!!

WHICH ONE WOULD YOU REALLY RATHER HAVE?

Original Low Profile Mustang Rally Pac

Neither the clock or the tachometer work. The wires have been cut off by some midnight auto supply technician. The steering column clamp, wire cover, gaskets and screws are all missing. The original wrinkle finish paint looks like the Pac has fallen off every swap meet table in the country. The plastic crystals are either broken or scratched so badly you can't see through them. The plastic chrome probably died after the first year of cigarette smoke hit them. Then there is the small matter of warranty..... "It worked when it was taken off the car". No one bothered to mention that was at least 7 years ago by the third individual before him! May the original Pac Rest in Peace.....

Autoworks Low Profile Rally Pac The autoworks rally pac looks exactly like the original did when it was new. The tachometer and clock (Quartz powered) function perfectly. Autoworks provides you with a complete warranty to guarantee your satisfaction and the unit's operation. All Autoworks Rally Pacs come complete with the proper steering column clamp, wire cover, gaskets and theftproof screws. All necessary wiring harness is included and marked for easy connections. Autoworks custom manufactures each Rally Pac (entirely USA made) and paints your Pac to match your Mustang's steering column color just as the factory did, using factory formulas. No more need for excuses about having the incorrect color Rally Pac for your interior or the wrong RPM scale for your "k" model. Autoworks makes all of the over 30 different combinations of colors, engine models and RPM scales. Hundreds of 65/66 Mustang owners with our Rally Pacs on their daily drivers or national show winning Mustangs prove that we must be doing something right!!!!!!!
