

Walker
**RADIATOR.
WORKS**

FINALLY!

**A DURABLE ELECTRIC FAN
PACKAGE DESIGNED FOR MUSTANGS**

**... MOVES
TWICE THE AIR!**

- It moves twice as much air as our 12" fan and is much more durable because of advanced blade/motor matching.
- Pos-A-Seal™ adjustable thermostat installation makes positive mechanical in-radiator tank installation without fuss and with quality appearance.
- Our durable die stamped mounting kit is designed to attach to Mustang Radiators easily with confidence.
- A package that will set the standard in Electric Cooling Fans for Mustangs.
