## DIANE PFEIFER, COUNTRY MUSIC AND MUSTANGS

### Here is Diane's story

"The reason I got into Mustangs was quite accidental, as a child I always played with cars instead of dolls and my favorite was a 1956 turquoise T-Bird convertible toy. When I realized I needed a car in 1975, I decided I wanted a T-Bird. Unfortunately, my budget didn't agree. So, I was just sort of looking around at Hub Ford in Atlanta and there was this 1966 convertible Mustang that match the baby blue sweater I was wearing. Thanks to a smart salesman who told me how great I looked in the car, I began my love affair with Mustangs.

In 1976 I bought another ('66 baby blue again) and in 1977, I restored (interior work) a 1966 dark blue with pony interior.

I guess my cutest Mustang story would be that I wrote my biggest hit for Debby Boone in a traffic jam on I-75 North in my 2nd blue Mustang. And from the first royalties of that song I bought the red Mustang.

I attend all the shows here every year, but don't enter, as I DRIVE mine. I guess I love Mustangs because I was a teenager when they came out and we all like feeling young again, right? (Hee-hee!)"
