

HELP!

The *Mustang Times* needs your help! We need, basically, everything. Specifically, we need the following:

Horse Show — black and white photos (preferably, but color will do) of your Mustang with basic facts about your pony, such as how long you've had it, where you found it, what options it has, do you show it and/or drive it, and any other information you think may be of interest to fellow MCA members.

Regional Group News — any and all news from your regional group, including meetings, shows, picnics, caravans, etc. along with black and white photos of your group's activities.

Technical Articles — any advice on Mustang repair, restoration, and preservation, including engine work, paint and body, detailing, preparing for show, etc. and any helpful hints or tricks you've found the hard way which can save fellow MCA members time or money or both. Again, black and white

photos, especially before and after, are most helpful.

How-To Articles — how to form a regional group, how to put on a local show, etc. Of particular interest would be an article on how to host a MCA National or Grand National Show. All the details, from petitioning National Headquarters right through to cleaning up the show site. (Maybe we could get National shows in new areas with a little helpful advice from old pros like the Kingsport Group.)

Cover Car — color slides for the front and back cover of the magazine and black and white photos for inside, plus an extensive article on your car's history, restoration, show activities, etc.

Classified Ads — buy, sell, or trade. You can't beat the price!

Letters to *Mustang Times* — your comments, suggestions, questions, anything you think may be of interest to fellow MCA members.

New Products — Mustang vendors, get your new product information to MCA's 5,000+ members FAST. Again, you can't beat the price.

Event Calendar — the what, when, where, who of your show activities. Another free service.

Don't get discouraged if you don't see your article or photos in the *MUSTANG TIMES* right away. Regional Group News, New Products, and Calendar of Events are kept current, while just about everything else is backlogged. We will try to publish everything submitted by MCA members, but it may take a little time.

Finally, if you're not sure about an idea you have for an article, or want to check on publication of a submitted

article, send us a note with a brief description of your submittal. We're ALWAYS interested in new material for the *MUSTANG TIMES* and we will try to reply to all inquiries.

I'm of the "picture is worth a thousand words" school, so I had to make the map you see on page 46-47 before I could really tell where the Regional Groups of the Mustang Club of America are located. It's quite impressive when you see it all at once. 80 Regional Groups throughout the United States and Canada. Somebody in Tennessee must really love Mustangs!

I just received my first issue of *Pony Talk*, the Old Fort Mustangers club newsletter. Editor Dennis Begley and his staff put out a monthly newsletter that would put many national car club newsletters to shame! My compliments.

By the way, the dog's name is Muttley, he lives on my street, and he loves to chase cars — from the front. He always wins the race, so please, no nasty letters about running over dogs!

COMING UP IN THE *MUSTANG TIMES* . . .

Columbia Fall Nationals
1965 GT Hardtop Convertible — Jim Yancy's Texas Pony
Insuring Your Mustang
Alabama's Best — Horace Wood's '66
