NEW POSTER

Mustang Classic Collections announces the addition of the all new AUTOMOBILE QUARTERLY Mustang Poster to its line of Mustang Automobiles. The new poster, "Mustang — The First Generation," is a full color 23"×36" featuring 14 1964½ to 1973 Mustangs, Shelybs, and Bosses. As with all AUTOMOBILE QUARTERLY posters it is suitable for framing. Prices include insured mailing in a sturdy mailing tube. Priced at \$5.95 each, two for \$10.50, three for \$14.00. Contact Mustang Classic Collections at P.O. Box 539-AQP, Pine Lake, Georgia 30072-0539.

NEW CATALOG

Kaufman Products has released a catalog devoted solely to the Hi-po and HO Fords with products developed and tested by Advanced Engineering West. Kaufman Products offers components that range from high performance cylinder head packages to rugged chassis and drive train components. Send \$3.00 for a copy of this catalog to Kaufman Products, 12418 Benedict Ave., Downey, California 90242.

Products listed in NEW PRODUCTS are those which the *Mustang Times* Staff feel are of interest to Mustang Club of America members. All specifications or claims are supplied by the manufacturers or sellers, who bear responsibility for their accuracy. This listing is provided as a free service, and Mustang products vendors are invited to submit information and black and white photos for consideration.

WEATHERSTRIP

Bob Drake Mustang Parts is reproducing the upper roof rail weatherstrip seal for 1965-66 fastbacks. This sponge neoprene extrusion with molded ends retails for \$65 per pair.

These reproductions are said to be identical to the original and perfect fitting. For more information, contact Bob Drake Mustang Parts, 1819 N. W. Washington Blvd., Grants Pass, Oregon 97526, (503) 474-0043.

FORD INTRODUCES RACE-READY MUSTANG SVO

Ford Motor Company announced they will offer a competition-ready version of the Mustang SVO for road racing.

The road racing SVO is more of a deletion than an addition package. Deleted from the race ready SVO's are: air conditioning, power windows and door locks, radio, and floor mats. Fog lamps are included, but are not installed. They come loose in the trunk so you can install them if you want.

Standard SVO engine, drive train, and suspension are included. Retail price of this competition prepped SVO is \$14,332. Ford is definitely back on the right track!

QUICKOR SWITCHES TO POLYURETHANE

Quickor Engineering recently completed the process of switching from rubber to polyurethane anti-sway bar bushings.

The bushings support the anti-sway bars and the kind of support they have can make a significant difference in handling characteristics. Polyurethane reduces friction in contact with the anti-sway bars, allowing the bars to ro-

tate more freely within the bushing as the car turns. This reduces stress on the bar, prolonging its life. The polyurethane itself lasts longer than rubber, saving replacement time and costs.

Additional information is available by calling Quickor Engineering at (503) 646-9696 or by writing to Quickor Engineering, 6710 S. W. 111th Ave., Beaverton, OR 97005.
